NOTES :-

Heights are in metres and above Indian mean sea level.
Contours are approximate.
A relative heights, e.g. ...8r represents the approximate height, in metres, between the top and bottom of a steep slope.
The kilometre stone numbers along roads, railways and canals are shown in slant type, e.g. '1' whereas milestone numbers are shown in upright type, e.g. '5'.
Wells and tube-wells are numerous throughout this sheet; only the important ones have been shown.
A relative height, e.g. ...m marked along a canal, indicates the height of the top of the canal embankment above the adjacent country.
Cart-tracks and unmetalled roads in this sheet are generally motorable in dry season. Permission to use those along canals and inside forest is required from the Irrigation and Forest authorities, respectively.
Tanks, shown dry in this area, usually contain water from July to January.
Common boundaries of Reserved Forests have not been shown for want of reliable information.
