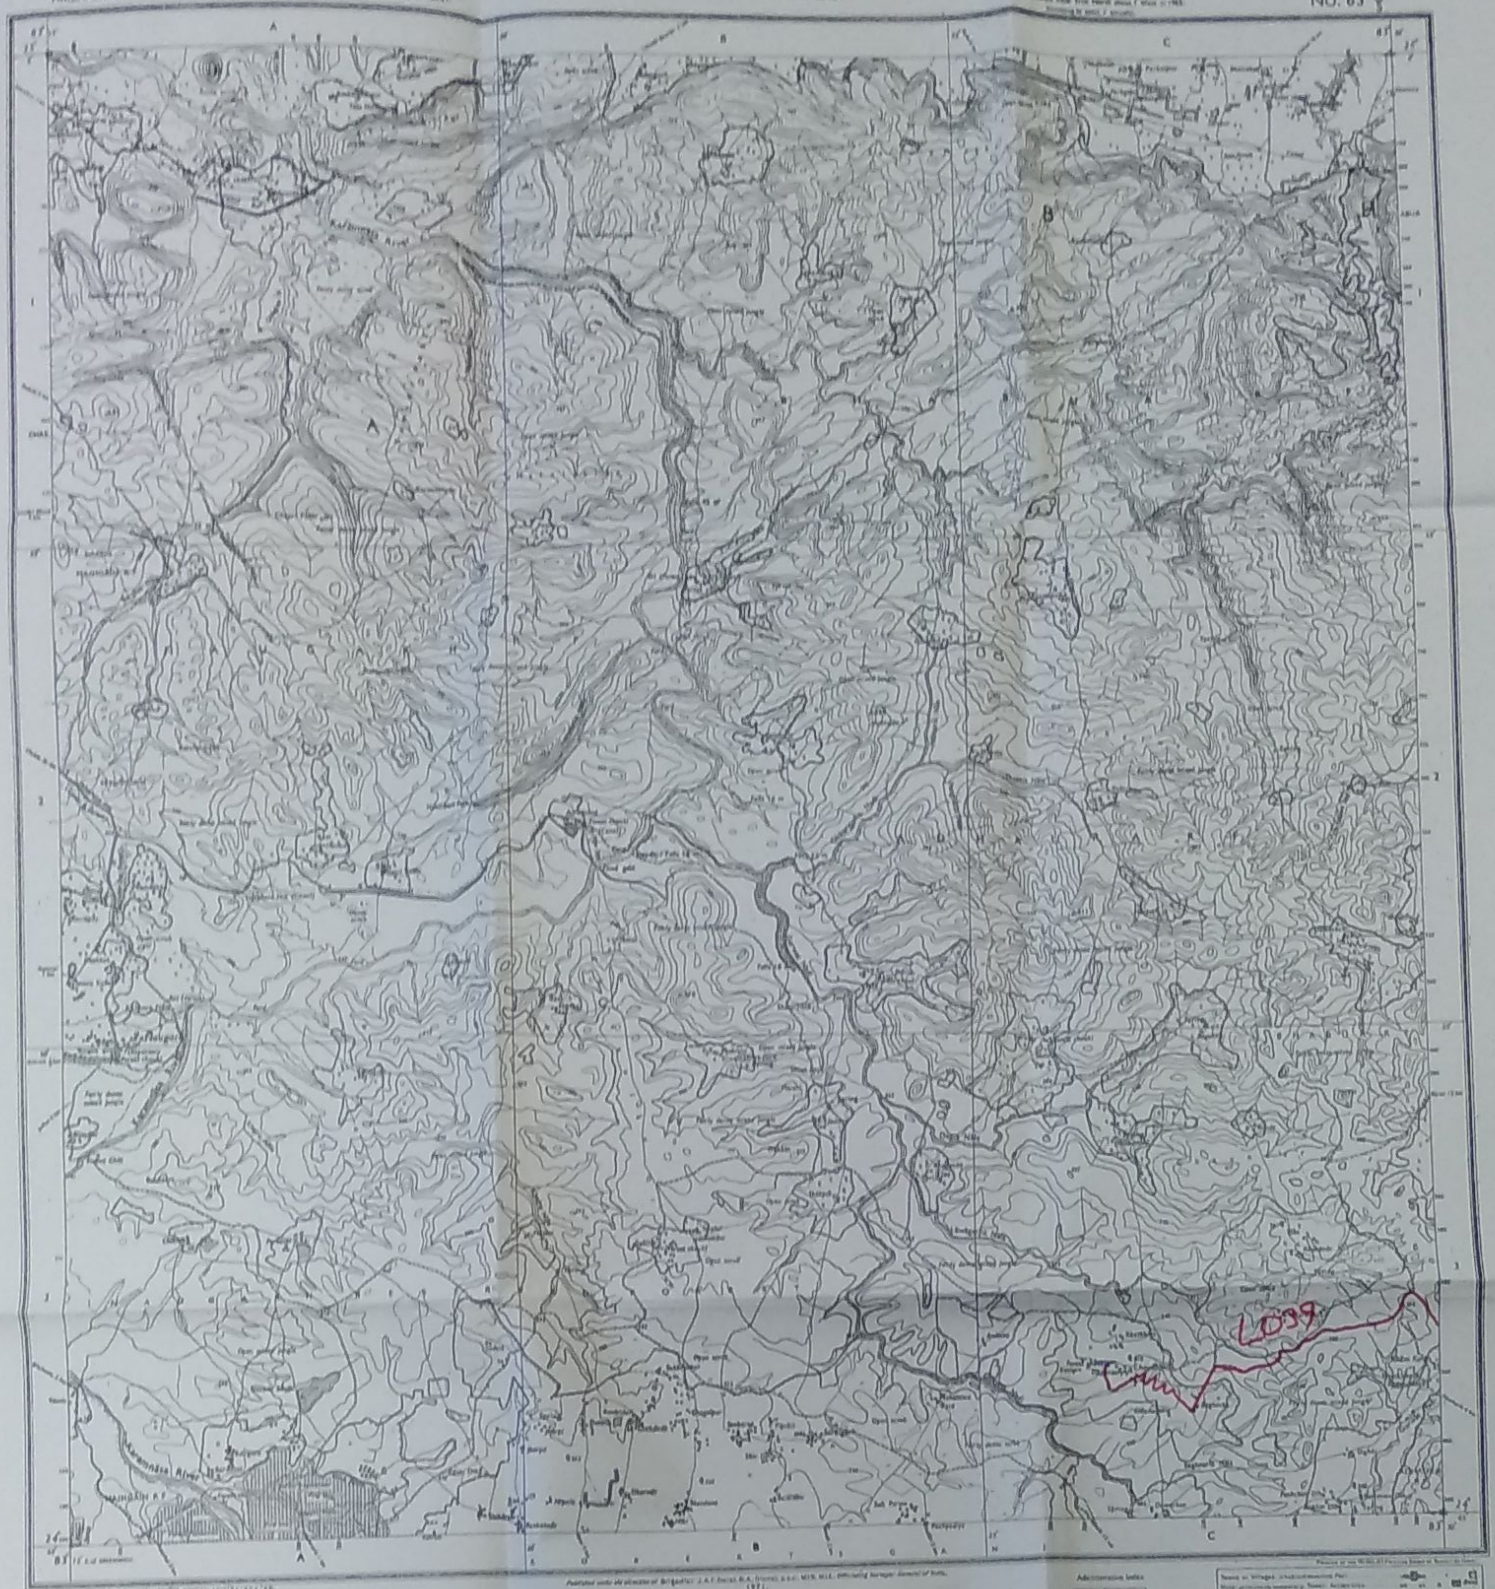
SHEET 63 F/5 FIRST EDITION



Published under the direction of Brigadier J. A. F. Dodd, R.A. (Retd), A.D.C., M.I.S., Officiating Surveyor General of India.

1:50,000

HEIGHTS & CONTOURS IN METRES
CONTOUR INTERVAL 20 METRES

Water features are shown in blue where they generally contain water.
Permanent areas are indicated pale blue.
For explanation descriptions of symbols of Restricted or Protected Features are shown in green, magenta.

Contours are approximate.
A vertical height, A1, represents the approximate height in metres between the top and bottom of a steep slope.
Standard spot and subsidiary grids, Prohibited areas and other regulations are in green but protected scrubland areas are in black.

The Western zone contour shown thus is at 20 m. Eastern zone contour shown thus is at 20 m.
Contours with zone terminated the indicated portions of the zone; only the important zone have been shown.
All unmarked roads are metalled in dry weather. Permanent or wet weather roads are shown red and roads bounded thus are bridged and fords indicated respectively.
Canals shown dry generally carry water from July to November.
