NOTES :-

Heights and Contours have not been shown.
The course of the Beas River is liable to continual change owing to shifting of the river bed.
A rubble height, eg.,6 represents the approximate height, in metres, between the top and bottom of a stony area.
Cultivation areas are coloured yellow.
The exterior boundary lines of areas of Reserved or Protected forests are shown by green dands.
Wooded areas are coloured green. Scattered trees and other vegetation are in green, but prominent isolated trees are in black.
