- (ii) To formulate a practical methodology applicable to different biogeographical zones of India for estimation of the values in monetary terms in respect of each of the above categories of forest values.
- (iii) To illustratively apply this methodology to obtain actual numerical values for different forest types for each bio-geographical zone in the country.
- (iv) To determine on the basis of established principles of public finance, who should pay the costs of restoration and/or compensation with respect to each category of values of forests.
- (v) Which projects deserve to be exempted from payment of NPV.

On the basis of the directions issued by this Court, a Committee consisting of Mrs. Kanchan Chopra gave a report and the same was examined by the CEC.

The report contains detailed study of the relevant factors. The Forest Survey of India, has since last two decades, been undertaking forest cover mapping of the country using satellite data obtained by the NRSA, Hyderabad. The methodology of mapping involves the geo-rectification of the satellite imagery using the Survey of India toposheets followed by the digital interpretation of the same and extensive ground truthing. It was found that the forest cover maps depicts mainly three tree canopy density classes, viz., very dense, moderately dense and open. There were other classifications in the Forest of India and "Champion and Seth" have classified the forests of India into 16 major groups. The major basis of classification included the climate, the soil and the past treatment as these factors determine the vegetation type of a given locality. CEC has classified the forest taking in view the ecological role and value of the forests and for the purpose of the report, 16 major forest types have been further grouped into 6 ecological classes depending upon their ecological functions.

Eco-Class -I	Consisting of Tropical Wet Evergreen Forests, Tropical Semi Evergreen Forests and Tropical Moist Deciduous Forests
Eco- Class II	Consisting of Littoral and Swamp Forests
Eco-Class III	Consisting of Tropical Dry Deciduous Forests
Eco-Class IV	Consisting of Tropical Thorn Forests and Tropical Dry Evergreen Forests
Eco-Class V	Consisting of Sub-tropical Broad Leaved Hill Forests, Sub-Tropical Pine Forests and Sub -Tropical Dry Evergreen Forests
Eco-Class VI	Consisting of Montane Wet Temperate Forests, Himalayan Moist Temperate Forests, Himalayan Dry Temperate Forests, Sub Alpine Forest, Moist Alpine Scrub and Dry Alpine Scrub

Based on the ecological importance of forest falling in different eco-value and canopy density classes, relative weightage factors have also been taken into consideration. By using these relative weightage factors, the equalized forest area in eco-value Class I and very dense forest corresponding to forest falling in different eco-value and density classes have been compiled. For example, 17,997 sq. km. of open forest of Eco-Class IV has been calculated to be equivalent to 7,558 sq. km. of very dense forest of Eco-Value Class I.

Accordingly, the entire forest area of the country has been calculated and found to be equivalent to 5.2 Lakh sq. km. forest area having highest ecological significance as that of forest falling in eco-value Class I with density above 70%.

The net present value per hectare of forest has been fixed based on this data. For calculating the

average net percent value per hectare of forest in India, the following monetary value of goods and services provided by the forest have been considered:-

i	Value of timber and fuel wood
ii	Value of Non Timber Forest Products (NTFP)
iii	Value of fodder
iv	Value of Eco-tourism
v	Value of bio-prospecting
vi	Value of Ecological services of forest
vii	Value of Flagship Species
viii	Carbon Sequestration Value

Based on this, the NPV was fixed and the following recommendations have been made:-

- (i) for non-forestry use/diversion of forest land, the NPV may be directed to be deposited in the Compensatory Afforestation Fund as per the rates given below:- (in Rs.)

Eco-Value class	Very Dense Forest	Dense Forest	Open Forest
Class I	10,43,000	9,39,000	7,30,000
Class II	10,43,000	9,39,000	7,30,000
Class III	8,87,000	8,03,000	6,26,000
Class IV	6,26,000	5,63,000	4,38,000
Class V	9,39,000	8,45,000	6,57,000
Class VI	9,91,000	8,97,000	6,99,000

- (ii) the use of forest land falling in National Parks / Wildlife Sanctuaries will be permissible only in totally unavoidable circumstances for public interest projects and after obtaining permission from the Hon'ble Court. Such permissions may be considered on payment of an amount equal to ten times in the case of National Parks and five times in the case of Sanctuaries respectively of the NPV payable for such areas.

The use of non-forest land falling within the National Parks and Wildlife Sanctuaries may be permitted on payment of an amount equal to the NPV payable for the adjoining forest area. In respect of non-forest land falling within marine National Parks / Wildlife Sanctuaries, the amount may be fixed at five times the NPV payable for the adjoining forest area;

- (iii) these NPV rates may be made applicable with prospective effect except in specific cases such as Lower Subhanshri Project, mining leases of SECL, Field Firing Ranges, wherein pursuant to the orders passed by this Hon'ble Court, the approvals have been accorded on lump-sum payment / no payment towards the NPV; and
- (iv)- for preparation and supply of district level maps and GPS equipments to the concerned State / UT Forest Departments and the regional offices of the MoEF, the Ad-hoc CAMPA may be asked to provide an amount of Rs.1.0 crore to the Forest Survey of India out of the interest received by it.

Ministry of Environment and Forests also has filed its response and has accepted the recommendations made by CEC. Various user agencies have filed its objections. We heard the

FORM – I

(for Linear Projects)

Government of West Bengal

Office of the District Magistrate & Collector Bankura

No. 1410/BNK/BCW

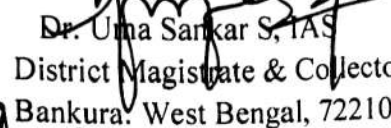

Dated.- 01.10.2018

TO WHOMSOEVER IT MAY CONCERN

In compliance of the Ministry of Environment and Forest (MoEF), Government of India's letter No. 11-9/98-FC (pt.) dated 3rd August, 2009 wherein the MoEF issued guidelines on submission of evidences for having initiated and completed the process of settlement of rights under the Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 ('FRA' for short) on the forest land proposed to be diverted for non-forest purposes read with MoEF's letter dated 5th February, 2013 wherein MoEF issued certain relaxation in respect of linear projects, it is certified that 0.596 hectares of forest land proposed to be diverted in favour of GAIL(India) Limited Jagdishpur – Haldia – Bokaro – Dhamra Pipeline (JHBDPL) in Bankura district falls within the jurisdiction of Bankura North Forest Division as detailed in Annexure – I.

It is further certified that:

- (a) The complete process for identification and settlement of rights under the FRA has been carried out for the entire 0.596 hectares of Forest area proposed for diversion. **The proposed area does not cover any part of the FRA, 2006, since there is no claim in this area as on date.**
- (b) The diversion of forest land for facilities managed by the Government as required under Section 3(2) of the FRA have been completed and the Gram Sabhas have given their consent to it. **Not applicable in this area.**
- (c) The proposal does not involve recognized rights of Primitive Tribal Groups and Pre-Agricultural communities. **Not applicable in this area.**
