Scheme for Compensatory Afforestation to be carried out over 106.016 ha. in Dandapadar and Tala Ambapadar villages of Thuamul Rampur Tahasil in Kalahandi District in lieu of forestland to be diverted for Infrastructure of Daitari Iron Ore Mines of Odisha Mining Corporation Ltd. in Keonjhar District.

There is a proposal for construction of Conveyor for transportation of ore from Daitari Iron Ore Mines of OMC Ltd in Keonjhar District. Total area for the project is 106.016 hectares and the entire area is forest land. Out of these 106.016 ha., Compensatory Afforestation Schemes for 54.238 ha in Dandapadar village and 48.96 ha. in Tala Ambapadar village were prepared excluding 2.818 ha overlapping area with Daitari ML for which Forest Clearance has been obtained. MoEF&CC in Stage-I approval order directed to raise Compensatory Afforestation over 106.016 ha. Hence a consolidated scheme for the entire forest area to be diverted (106.016 ha.) is prepared.

2. Description of Area

- I. **Whether the site selected for Compensatory Afforestation is a land bank or not:** This identified non-forest area is under the control of Revenue Department and classified as 'Dangar'. It is not a land bank
- II. **If the CA site is other than the land bank, reasons be given:** No land bank has been established yet for this purpose.
- III. **In case of non forest area identified for CA, then what is the distance of CA site from the adjoining forest boundary:** C.A site of Tala Ambapadar village is at a distance of 50 mtr from Ambapadar RF. CA land of Dandapadar is at a distance of 0.5 km from Melaghara R.F.
- IV. **Soil type :** Lateritic soil.
- V. **Topography :**
- a) Hilly/Undulating/Plain: The Compensatory Afforestation sites are hilly and undulating.
- b) Slope: Steep/Medium/Gentle: The sites selected for Compensatory Afforestation have medium to gentle slope.
- VI. **Whether the area is bearing any root stock of vegetation:** Major portion of the sites selected for Compensatory Afforestation are either barren or with weed growth like *Lantana*, *Eupatorium*, *Woodfordia fruticosa*, *Combretum decandrum*.

3. Plantation Model:-

From the Decision Support System it is observed that the area in Dandapadar village contains 19.831 ha. Moderately Dense Forest where ANR without gap planting will be done. Details of the plantation are furnished below: -

Sl No	District	Tahasil	Forest Division	Revenue Village	Total area in hectare	M.D.F in ha.	Seedlings to be planted @ 1600 per ha
1.	Kalahandi	Th. Rampur	Kalahandi South Division	Dandapadar	54.238	19.831	34.407 ha = 55051 seedlings
2	Kalahandi	Th. Rampur	Kalahandi South Division	Tala Ambapadar	51.778	-	51.778 ha = 82844 seedlings
				Total	106.016	19.831 ha ANR	86.185 ha Bald Hill plantation = 137895 seedlings

As 137895 seedlings will be planted over 106.016 ha. against the requirement of 106016 seedlings (1000 seedlings per ha. as per MoEF&CC guideline), there is no shortfall and hence no plantation in degraded forest is required.

Since the selected site has more than 30% slope and barren, Bald Hill plantation will be raised over 86.185 ha. ANR without gap planting will be done over 19.831 ha. Maintenance of plantation for 10 years is also required as per F.No. 11-168/2009-FC Date 14.2.2012 of MoEF. Cost norm for Bald Hill plantation is furnished as **Annexure-(E)**.

Cost norm for ANR without gap plantation is furnished as Annexure (F).

4. Schedule of Plantation Programme:-

Detail of year-wise break up of requirements of funds is as under:-

5. Technical details:- Technical details of Compensatory Afforestation Scheme are as follows:

a) General Details :

Survey & Demarcation of boundary:

The identified area will be surveyed by DGPS and the area will be demarcated with RCC pillars of size 2.5 mtr x 30 cm x 30 cm. This work will be done by the User Agency at Project cost.

Fencing:

To protect the plantation from grazing and other biotic interference, it will be provided with 7 strand barbed wire fencing with RCC pillars, the cost for which will be paid by the User Agency. Length of barbed wire fence will be 2.816 km. Estimate for barbed wire fencing has been provided in Annexure – (G). Length of boundary required to be fenced is given below:

Village	Area in ha	Total fence in mtr	Common boundary if any	Total fence required in mtr
Tala Ambapadar	48.960	2815.78	577.4 mtr common with 2.818 ha	2238.38
Tala Ambapadar	2.818	1224.36	577.4 mtr common with 48.96 ha	646.96
Dandapadar	54.238	3554.00	Nil	3554.00
Grand Total	106.016	7594.14	1154.8	6439.34

Planting and post-planting:

- b) Bald Hill Plantation shall be taken up with 1600 plants per hectares at spacing of 2.5 m x 2.5 m. Alignment and pit marking should be done carefully in slopes so that the horizontal distance between plants in a row remains 2.5 mtrs and not the distance measured along the slope. Size of pits will be 45 cm X 45 cm X 45 cm for Block

Plantation. All post planting measures like casualty replacement, soil working, manuring, fire protection etc. will be undertaken. The plantation area should be divided into 4 hectare plots. These plots should be demarcated in the field before digging of pits so that the demarcating line does not cross a plantation row. The 4 ha plots should be shown on map. Cost norm for Bald Hill plantation is furnished as **Annexure (E)**.

- c) **Species:** Although indigenous species are to be preferred in the plantation, considering adverse soil & moisture conditions we may go for hardy exotic species where required so that the plants are able to survive. For success of plantation in interior tribal areas, plantation of fruit and NTFP species plays a great role since economic species have a little value for local people. Considering the topography, soil and moisture availability of the plantation area, the following species will be planted

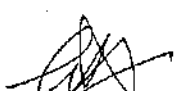

Sl No	Name of species	Common name	Remarks
1	<i>Azadirachta indica</i>	Neem

d) Soil and Moisture Conservation Works :-

Since most of the areas are hilly and undulating, staggered trenches should be constructed as given in the cost norm for Bald Hill plantation. Besides this, 100 mtrs of Continuous Contour trench of 1.0 mtr top width X 0.6 mtr bottom width and 1.0 mtr height will be dug per hectare of Bald Hill plantation. Estimate for earth work for Continuous Contour Trench is furnished as Annexure (H).

- e) **Protection of the plantation:** - 7 strand Barbed wire fence with RCC pillars all along the periphery of the plantation will be provided. Few watchers will also be engaged for protection of the plantation as per cost norm of Bald Hill plantation.
6. **Proposed Monitoring Mechanism:-** The scheme shall be executed by the Divisional Forest Officer, Kalahandi South Division with his staff and all prescribed records are to be maintained. In addition to internal monitoring by Forest Officers of State Government, a Monitoring Committee under item no. 3.4(iii) of consolidated guidelines under F.C Act 1980 issued by MoEF, shall be established with a nominee of the Central Government to oversee that the stipulations, including those pertaining to Compensatory Afforestation are carried out.
7. **Total cost of the project:** The total cost of the project is Rs 3, 79, 62,300.00 (Rupees Three crore Seventy-nine lakh Sixty-two Three hundred) only as detailed in Annexure-(I) which shall be payable by the user agency as per demand of the D.F.O, Kalahandi South Division.

PEO Sri Chandra Sekhar Soren has provided all the required information and also took down the Palli Sabha proceedings.

The following decisions were taken in the Palli Sabha through consensus :-

Decision 1

In the beginning , the President SJ. Surendra Badra said about the objectives of this Palli Sabha ,that, OMC has applied for the diversion of 106.016 hectors of forest land for non- forestry purposes in Rebana Reserve Forest for the construction of a conveyor belt. In this meeting, it was explained to the people that as per "Forest Conservation Act. 1980" the consent of the Grama Sabha is required for the diversion of Forest Land for non- forestry purpose. As per, "ST & OTFD Act.2006 & Amendment Rule .2012", no Tribal people or Traditional Forest Dwellers would be living, cultivating or depending upon such Forest Land. Local problems were discussed in the Palli Sabha by the Sarapanch, PS member and word was given for eradicating all such problems.

It is evident from the earlier proceeding of Palli Sabha and the views of the village people, that 3 nos. of sensitization programmes and Palli Sabha have been made for creating awareness about Forest Right Act. & the rules thereto. All these proceedings were presented in the Palli Sabha & given place in the Proceedings.

The gist of the earlier Palli Sabha proceedings & the awareness programmes in given below:-

1. Forest Right Committee (FRC) constitution Palli sabha.

Village:- Panganal

Date:- 23/03/2008

In this meeting the Ward member Sri Surendra Badra presided. The Govt. Officials present in the meeting explained the ST, OTFD Act. 2006 & the rules thereto. In this meeting FRC was constituted with Sri Kanderam Rout as Secretary & Surendra Kumar Badra as President with 9 other members.

2. Further Palli Sabha was also convened on 11/12/2008 & application was received from 81 tribal people for issuance of individual titles.
3. Further Palli Sabha was held on 21/12/2009 in Panganal village of Tangiriapal G.P. for considering the individual claims of 83 tribal beneficiaries.

In today's Palli Sabha, the President MR. Surendra Kumal Badra had discussed elaborately the provisions of the Forest Right Act. 2006. He wanted to know, if any claim or application of the ST or Traditional Forest Dwellers acquiring forest lands prior to 13/12/2005 was pending. This matter was thoroughly discussed in the Palli Sabha & it was concluded that no tribal people of Panganal village had acquired or cultivated or lived in forest land. So, it was decided that livelihood of the ST & Other Traditional Forest Dwellers shall not be affected if the diversion proposal of 106.016 hectors of Forest Land from Rebana Reserve Forest for non-forestry purpose is approved. The diverted land shall be used by the OMC for Conveyor belt. It was unanimously decided that the villagers shall have no complain to the diversion proposal.

So as per the opinion of the people present in today's Palli Sabha, the interest of the STs, P.G & other Traditional Forest Dwellers is not being hampered, if the diversion proposal of the OMC for diversion of 106.016 hectors of Forest Land from Rebana Reserve Forest is diverted for non-forestry purpose or for the conveyor Belt. This proposal was unanimously approved & all members present signed on it. This has been also video recorded. In the end the President Tangiriapal Sarapanch, ZP member of "Zone No.33" Smt. Laxmipriya Champia, PS member Sri Krushna Chandra Murmu & all other Govt. Officials thanked the villagers for their co-operation the meeting was ended.

If the proposed forest land is directed for non forest purposes. Also the people are requested the OMC & Govt. for developmental work like road, Electricity, Tube well & etc. Nobody in cultivating, acquiring or depending upon the proposed land of no ST or PTG or PAC people either individually or in community occupying the proposed land.

So as per the opinion of the people present in the today's pallisabha the interest of the ST, PTG, PAC & OTFD is not being hampered if the diversion proposal of the OMC for diversion of 106.016 hector of Forest land from Revana Reserve Forest is diverted for non forestry purposes i.e. conveyer belt from OMC Daitari hill top to Daitari Railway siding. This proposal was unanimously approved & all

members present signed on it. This has been video recorded. In the end the president of pallisabha & villagers present thanked to the Govt. officials for their kind co-operation.

SCHEME FOR CONSERVATION, PROTECTION AND REGENERATION OF EXISTING FOREST COVER IN THE AREA UNDER MECHANIZED FACILITIES FOR TRANSPORT OF 2.5 MTPA IRON ORE FROM DAITARI IRON ORE MINES.

Proposal has been submitted by OMC Ltd for use of forest land of 106.016 ha (diversion of 103.198 ha and change in land use pattern of 2.818 ha) in Rebana RF under Keonjhar (WL) Division of Keonjhar District, Odisha, for non-forest use for installation of mechanized facilities by OMC Ltd. for production and dispatch of 2.5 MTPA of Iron Ore from Daitari Iron Ore Mines. Ministry of Environment Forests & Climate Change has accorded Stage-I permission for the said proposal vide F-8-27/2017-FC Dt.27.9.2017. State Forest & Environment Department, vide letter No. 10F (Con) 120/2016/20831/F&E Dt. 10.10.2017 has imposed some additional conditions to the Stage-I approval out of which condition no. (i) stipulates that: -

"Conservation, protection and regeneration of existing forest cover within the project Area barring the minimum no. of trees required to be felled, is required to be done at project cost. The relevant scheme in this regard shall be prepared by the Divisional Forest Officer, Keonjhar (WL) Division and the same be approved by competent authority for implementation at project cost. Trees should be felled only when it is absolutely necessary and in a phased manner."

Hence the scheme is prepared as detailed below: -

Area statement and plantation model:

Availability of land in the project area which can be utilized for protection and regeneration of existing forest cover after felling of trees whose removal is essential for the project needs to be assessed. The following infrastructure will be installed in the forest area proposed for diversion -

| Sl. | Land Use with area in ha | Treatment | Area to be planted | Area to be clear felled/ pollarded or left as it is |
|-----|---|---|---|---|
| (1) | Crushing and screening plant (Plant 1 to Plant 3) for 1.641 ha: | Trees are to be retained on the periphery. Inside area of 1.641 ha to be clear felled. | Nil | 1.641 ha. |
| (2) | Conveyor corridor for 20.410 ha | All trees outside the 6 mtr width of conveyor belt should be retained or pruned, if necessary. Infrastructure for conveyor belt with a span of 20 mtrs (Average) totalling 342 locations to be constructed. Area over foundation for 6 mtr long X 3 mtr wide, the area to be clear felled. This comes to 6156 Sq. mtr (342 X 6m X 3m) or 0.6156 ha. Trees on balance 3.9944 ha (4.61 ha below conveyor line-0.6156 ha for infrastructure) within 6 mtr strip (4.61 ha) may be retained or pollarded as per requirement. Outside the conveyor belt line of 6 mtr, ANR plantation with gap planting of 200 plants per ha. will be done over 15.8 ha | ANR without gap plantation over 15.8 ha as per cost norm given in Annexure-I. | 4.61 ha. |

| | | | | |
|-----|---|--|-----|-----------|
| (3) | Approach road to plant and conveyor corridor (Road 1 to 12) over 3.496 ha: | Trees on roadside to be retained, | Nil | 3.496 ha |
| (4) | Tertiary crushing and screening plant, material storage, etc. over 48.960 ha: | Trees are to be retained on the periphery. Inside area to be clearfelled. | Nil | 48.96 ha. |
| (5) | Railway siding (Siding 1 to 5): over 28.691 ha | Trees can be retained on the outer periphery. Inside area to be clearfelled. | Nil | 28.691 ha |
| (6) | Change in land use pattern (re-diverted) 2.818 ha | The area is used as road and therefore no plantation will be done in the area. | Nil | 2.818 ha |

Hence within the total area of 106.016 ha. the following activities are envisaged:

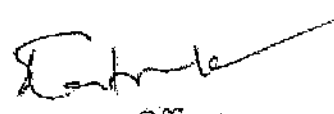

- (i) 15.8 ha shall be covered by ANR with gap planting of 200 plants per ha.
- (ii) 3.9944 ha shall be covered by ANR without gap plantation.
- (iii) (a) 2.818 ha already covered by infrastructure (road) and hence no plantation proposed.
(b) 0.6156 ha and 1.641ha to be covered by infrastructure (Crushing plant and foundation for conveyor belt)
- (iv) 81.147 (48.96+3.496+28.691) ha. proposed to be developed for infrastructure and hence no plantation proposed.

Execution of work: -

The work will be executed by OMC Ltd at project cost.

Total cost of the project:

The total cost of the project is Rs.5,87,500.00 (Rupees Five lakh eighty seven thousand five hundred only) as detailed in Annexure-III.

Divisional Forests Officer,
Keonjhar Wildlife Division,

SCHEME FOR ADDITIONAL INTERVENTIONS REQUIRED IN THE FOREST AREA OVER 106.016 HECTARES DIVERTED FOR INSTALLATION OF MECHANIZED FACILITIES FOR PRODUCTION AND DESPATCH OF 2.5 MTPA OF IRON ORE FROM DAITARI IRON ORE MINES OF O.M.C LTD.

MoEF & CC has accorded Stage-I permission for diversion of forests pertaining to Daitari Infrastructure of OMC Ltd. Vide F-8-27/2017-FC Dt.27.9.2017 subject to fulfilment of certain conditions. Forest & Environment Department vide letter No. 10F (Con) 120/2016/20831/F&E Dt. 10.10.2017 at Serial No. (iii) has stipulated the following additional condition:

"In view of importance of the area from wildlife point of view, in case, the area proposed for diversion under this proposal, is not included in the previously approved Site Specific Wildlife Conservation Plan for Daitari Iron Ore Mines and Daitari Extension area, the plan shall be revisited by the CWLW, Odisha for modification if any and differential cost, if any, shall be deposited by the user agency."

The project area for construction of conveyor belt is located in Rebana RF between Daitari Iron Ore mines (1018.3085 ha) and Daitari Extension area (249.968 ha) of Keonjhar Wildlife Division.

Site Specific Wildlife Conservation Plan has been prepared for Daitari ML over 788.6959 ha and Daitari Extension area over 249.968 ha in Keonjhar Wildlife Division. Site Specific Wildlife Conservation Plan for the portion of Daitari Iron Ore Mines over 229.6126 ha located in Cuttack Forest Division has been prepared. Both these schemes have been approved vide Memo No. 9569/1 WL (C) SSP-382/2012 Dated 2.12.2013 of the Principal Chief Conservator of Forest (Wildlife), Odisha and the funds for the project have been deposited by the User Agency.

Map showing Daitari ML, Daitari Extension area and the present proposal for installation of conveyor belt is enclosed herewith as **Plate No.I.**

It is seen from the map showing interventions (Plate-IV of Site Specific Conservation Plan for Daitari and Daitari Extension) that provisions for Bird bath, Light Reflectors and Signage have been made very close to the present project area. Salt licks, Grassland development, Enrichment plantation, Grass seeding etc. have been provided in locations near the project area. Since the present project area is within buffer zone in between Daitari ML and Daitari Extension of the same user agency, the activities to be taken under the approved Site

Foundation and apron should be 25 cm thick.

Height of check dam above the foundation should be 90 cm or height of the bank whichever is higher.

Uphill side width should be same as that of height of the dam.

Downhill side width should be twice that of height of the dam.

Uphill side apron should be 30 cm and downhill side apron should be 90 cm.

Spillway of 1 mtr long and 30 cm deep may be provide on top of check dam for flowing of excess water.

Volume of stone work will be Cross section of check dam is sq.mtr x length of check dam in mtr.

For example, as per the drawing shown above, the volume calculation for a 2.5 mtr long check dam will be: -

Cross section:

Foundation $4.5 \text{ mtr} \times 0.25 \text{ mtr} = 1.125 \text{ sq.mtr}$

Super structure $(3.3\text{m} \times 0.6 \text{ m})/2 \times 0.9\text{m} = 1.755 \text{ sq.mtr}$

$1.755 \text{ sq. mtr} + 1.125 \text{ sq.mtr} = 2.88 \text{ sq.mtr}$

Volume = $2.88 \text{ sq.mtr} \times 2.5 \text{ mtr} = 7.2 \text{ cu.m}$

Volume of stone for a 2.5 mtr long loose boulder check dam is 7.2 cu.m.

Volume of check dams of different lengths can be calculated accordingly.

Estimate of a standard loose boulder check dam is furnished at Annexure-II.

Top width of the check dam will be 60 cm

The bank should be dressed vertically and base area should be level. The earth should be kept for filling interstices of the check dam.

The length of check dam should be 50 cm longer than the width of the nala so that 25 cm on each side should be dovetailed into the bank.

Cross-section of the proposed dam should be marked on the vertical nala bank and the stones should be set properly.

In the forest area diverted for non-forest purpose loose boulder check dams measuring a total length of 200 running mtrs will be constructed by the User Agency. Outside the forest area diverted for non-forest purpose, loose boulder check dams measuring a total length of 600 running metres will be constructed by Forest Department with funds provided by the User Agency.

Executing Agency: The work to be done inside the diverted forest area will be executed by the User Agency. The work outside the diverted area will be executed by Forest Department with funds provided by the User Agency.

564

Requirement of funds: Rs. 8,20,000.00 (Rupees Eight lakh twenty thousand) only will be spent by the User Agency for work to be executed within diverted area. Rs 24,59,000.00 (Rupees Twenty-four Lakh fifty-nine) only will be deposited by the User Agency with the D.F.O., Keonjhar Wildlife Division for works to be executed outside the diverted area.
