- 4) Online Application No. FP/PB/Others/24606/2017 – Dated 25.02.2017 for 0.1627 Ha.

Dear Sir,

We take the opportunity to introduce our company IRM Energy Private Limited (IRMEPL), which participated in the 6th bid round of City Gas Distribution organised by the Hon'ble Petroleum and Natural Gas Regulatory Board (PNGRB), Ministry of Petroleum and Oil & Gas. IRMEPL has been authorised by PNGRB to lay, Build, Operate or Expand city or Local Natural Gas Distribution Networks in Geographical area (GA) of Fatehgarh Sahib District, Punjab.

To develop City Gas Distribution (CGD) in Fatehgarh Sahib as per directives of PNGRB, we proposed our initial Steel & PE pipeline network in Mandi Gobindgarh & its surrounding areas of Fatehgarh Sahib District. For the same, we had applied to your good offices for granting us permission for using Road/Canal side Protected Forest land admeasuring area 1.057 Ha. Vide Ref. No. (1). The Online Application was also registered for the same vide Ref. No. (2). Scrutiny fees amounting Rs. 1,000/- (Rupees One thousand Only) has been also paid by Challan No. 65140472425 – Dated 28.03.2017.

Now, as per policy decision as well, demand & potential of customers, we have planned to bifurcate our proposed Gas Pipeline Route. Considering these, the revised area for which we use Protected Forest land is 0.1627 Ha. For this area Online Application has been made vide re. No. (4). We had applied to concern authorities pertained in the bifurcated route and Undertakings for submission NOC is also enclosed herewith the proposal.

...2...

For the remaining area, out of total 1.057 Ha. (i.e. 0.8943 Ha.) for which we had applied to you earlier but omitted in this proposal, we will submit you a fresh proposal.

Considering the above facts, we request your good offices to consider our proposal and grant us the permission.

As this is a time-bound project contributing to National Prosperity, most expeditious actions are requested to grant us the permission.

Hope you will be kind enough to take the appropriate action for the act of which we shall be thankful to you.

Thanking You,

Yours Sincerely,

Sub: Clarification regarding guidelines for diversion of forest land for non-forest purpose as per the general approval , under Section-2 of the Forest (Conservation) Act, 1980, for laying of underground CNG/PNG and Slurry pipelines-reg.

Sir,

I am directed to refer to the representation received from the Government of Punjab through Regional Office Chandigarh vide letter no. 1-2Misc/2019-ROC dated 08.01.2020 on the above mentioned subject and to inform that the matter was considered by the Forest Advisory Committee (FAC) in its meeting held on 23.04.2020.

2. FAC observed that as per existing guidelines dated 28.03.2019, condition mentioned in Para 4.1 (f) is also applicable on the proposals mentioned in Para 4.2. It further observed that laying of underground CNG/PNG and Slurry pipelines in RoW of the existing road is an activity being taken up in forest area which is already under non forest use.

3. After thorough deliberation on the issue, FAC recommended that CA may not be levied in case of laying of underground Optical Fiber Cables (OFC), telephone lines, drinking water supply pipelines, electricity cables, CNG/PNG and Slurry pipelines within the RoW of existing roads (trench size not more than two meter in depth and one meter in width) not falling in National Parks and Wildlife Sanctuaries without felling of trees.

4. In view of the above, Para 4.2 of the Comprehensive Guidelines issued on 28.03.2019 may be read as:

Laying of Underground Optical Fiber Cables (OFC), telephone lines, drinking water supply pipelines, electricity cables, CNG/PNG and Slurry pipelines. General approval is accorded for taking up these projects within RoW of existing roads (trench size not more than two meter in depth and one meter in width) not falling in National Parks and Wildlife Sanctuaries' without felling of trees. Approval, in addition to general conditions mentioned above under para 4.1 (***except condition "f "***), subject to the following specific conditions:

- a. *No tree felling is involved for the proposed work*
- b. *After completion of the project the area under RoW should be reclaimed suitably.*
- c. *UA agrees to make good of any loss to Forest/Environment.*

- d. *The UA will seek permission from the local FD for carrying out any maintenance.*
- e. *In case, the proposed area falls in the RoW of the road passing through National Parks and Wildlife Sanctuaries, General Approval is subject to prior permissions from the State Board for Wildlife.*
- f. *In case of project involve tree felling, ten trees for each tree marked for removal shall be planted at the cost of user agency in consultation with the local forest department.*

This issues with the approval of the competent authority.

Your faithfully,

(Sandeep Sharma)
