Chandoli National Park which is a part of Sahyadri Tiger Reserve is one of the important Protected areas of the Maharashtra State, which is located in Western Ghats. Western Ghats area is considered among the top ten Bio-diversity hot spots of the world. Chandoli National Park is included in world heritage site by UNESCO'S world heritage committee on 1 July 2012. The total area of notified sanctuary is 308.17 sq. kms. Then it is upgraded as Chandoli National Park adding one village Amboli of Kolhapur District and notified total area of 316.67 sq.kms vide Government of Maharashtra notification dated 14 May 2004. Area is notified as part of Sahyadri Tiger Reserve on 5th January 2010.

The Sahyadri Tiger Reserve is located in the Sahyadri Ranges of the Western Ghats of Maharashtra. These ranges form a common boundary between Maharashtra, Karnataka and Goa. These areas constitute rich evergreen, semi-evergreen & moist deciduous forest. These forest areas encompass Warana river valley. It is the first Tiger Reserve of Western Maharashtra & 4<sup>th</sup> Tiger Reserve of Maharashtra State spreading over two protected Areas, those of the Chandoli National Park and Koyana Wildlife Sanctuary of 741.22 sq.km. and adjoining area in the landscape 424.35 sq.kms, total of 1165.57 sq.km. The area is spread over 4 districts namely, Satara, Satara, Kolhapur and Ratnagiri.

4. Human in-habitations are mostly been established in fertile lands with assured water supply. Such sites within the forest area are limited and therefore are ecologically significant. Flat grounds along major nalas can support revival floral and faunal attributes and such attributes are completely lost, with the presence of intensive agricultural attributes. Relocation in Chandoli National Park have amply demonstrated the benefits of relocation, especially to wild herbivores and consequently to the whole eco-system. Relocation of village Male will make available an area of 261.88 ha. of private agriculture land along as compensatory land for this project. Also an area of 257.61 ha. of revenue waste land and 1141.15 ha. of forest land will be free from human interference.

5. Out of 140 projects affected persons/ Khatedars (land holders) of Male Village, 20 Khatedars accorded consent to Option-I with 10 lakh package. Remaining 120 Khatedars accorded consent to Option-II of land to land and Gaonthan rehabilitation. Out of this one group of 58 Khatedars selected forest land at Bahule, Tahsil Patan and another group of 62 Khatedars selected forest land at Kharade, Helgaon, Hanbarwadi and Gosavewadi, Tahsil Karad for rehabilitation. Reasons to relocate one village at two different places includes unavailability of continuous patch of land at a stretch that can accommodate all 120 project affected persons / Khatedars who opted Option-II and also willingness and personal choices of two groups in selection of sites. Thus establishment of two gaothans at Bahule and Kharade - Helgaon became unavoidable.

**Details of land requirement are as follows :-**

Sr. No.	Location	No. of Khatedars	Land for agriculture	Gaothan Area	Unsuitable land in-between	Total Area Required
1.	Bahule	58	95.90 ha.	6.00 ha.	11.00 ha.	112.90 ha.
2.	Kharade, Helgaon, Hanbarwadi, Gosavewadi	62	95.60 ha.	9.15 ha.	10.25 ha.	115.00 ha.
<b>Total</b>		<b>120</b>	<b>191.50 ha.</b>	<b>15.15 ha.</b>	<b>21.25 ha.</b>	<b>227.90 ha.</b>

**Total 227.90 ha. area is proposed for diversion which includes the area as below :-**

Sr. No.	Name of village	Forest gat no.	Area in ha
1	Bahule	346	112.90
2	Kharade	314	9.15
3	Helgaon	1187b	32.85
4	Hanbarwadi	130	49.00
5	Gosavewadi	95	16.00
6	Gosavewadi	117	8.00
<b>Total</b>			<b>227.90</b>

6. Hence, the proposal for diversion of 112.90 ha. Reserve forest land from Bahule forest gat no. 346 and 9.15 ha. Reserve forest land from Kharade forest gat no. 314, 32.85 ha. reserve forest land from Helgaon forest gat no.1187b, 49.00 ha reserve forest land from Hanbarwadi forest gat no. 130 and 24.00 ha reserve forest land from Gosavewadi forest gat no. 95, 117 is submitted. the Deputy Conservator of Forests, Satara Forest Division, Satara has submitted justification for locating the project in the forest area to prove the project is site-specific as under:-

‘Land is not available in any command area of Irrigation Projects in Satara districts. There is no sufficient land available from “Gairan” or “Revenue waste land” in possession of Revenue department. Even in forests, it is not available in a continuous patch of land at a stretch that can accommodate all 120 PAP’s, at one location. Also we are getting more non-forest land (519.49 ha.) than the total forest land (227.90 ha.) proposed to be diverted.’

**7. The Deputy Conservator of Forests, Satara has certified that:-**

- 7.1 No suitable alternate land is available and the forest land required is the lowest minimum.
- 7.2 Density of site wise varies from 0.4 to 0.8 (Mixed plantation area).
- 7.3 The Project involves felling of total 38738 number of trees. The Girth wise abstract is as under:-

Tree Girth in Cm.						
0-30	31-60	61-90	91-120	121-150	(>150)cm	Total
9045	24780	4608	283	18	4	38738

- 7.4 The proposed area does not form part of any existing National Park, Wildlife Sanctuary, Nature Reserve.
- 7.5 The Proposed project is not likely to affect any monumental site of cultural, historical, religious, archaeological or recreational importance.
- 7.6 There is no violation of the Forest (Conservation) Act 1980.
- 7.7 The Proposed project is not within 10 km from the Wildlife Sanctuary and National Park.
- 7.8 The non-forest area covered under the project is not under the provision of Maharashtra Private Forest (Acquisition) Act 1975 by virtue of the application of Section 35 of Indian Forest Act 1927 and are not recognized as deemed reserved forest as well as not included in the area identified as “forest” as per dictionary meaning of forest as intimated to the expert committee appointed under the interim judgment of the Hon’ble Supreme Court dated 12/12/1996.
- 7.9 To submit necessary compliance under the Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006.
- 7.10 Agrees to defray the cost of felling of trees.

**8. Remarks of Chief Wildlife Warden are as under:-**

“Following area would be acquired due to rehabilitation of Village Male.

Name of Village	Area to be acquired after rehabilitation.			
	Private Area (Ha.)	Forest Area (Ha.)	Revenue Area (Ha.)	Total Area (Ha.)
Male	261.87	1141.15	257.61	1660.63

As per the details given above, the area to be disforested as per proposal of disforestation is 227.90 Ha. and in lieu of this, 1660.63 Ha. land will be acquired and therefore approval to the proposal of disforestation has been accorded.”

9. **In view of this, the proposal is recommended for approval under section-2 of the Forest (Conservation) Act, 1980 subject to fulfilment of the following conditions:-**

9.1 Legal status of the forest land diverted under the Forest (Conservation) Act, 1980 for rehabilitation of Village Male, Tal. Patan, Dist. Satara from Chandoli National Park of Sahyadri Tiger Reserve shall cease to be forest land.

9.2 User Agency shall restrict the felling of trees to minimum numbers in the diverted forest land and trees shall be felled under strict supervision of the State Forest Department.
