The detailed area statement of forest land is shown as under:- (P-207)

						7	1600.00	30.00	48000.00	4.8	R.F
Total									132000.00	13.20	

- 2) The total non-forest area involved in the project is 210.3 ha. (P-6 to 7). The site inspection report of the Deputy Conservator of Forests, Nanded Forest Division, Nanded is enclosed in the proposal file on page no.223 to 226.
- 3) The User Agency has given justification for locating the project in forest land that the Government of Maharashtra wants to take up capacity augmentation and up-gradation of the existing State Highways in the State of Maharashtra to single lanes standards with enhanced safety standards to road users. The work needs to be taken up for construction corridor concept. In order to provide corridor includes strengthening (in addition reaches) standard would be essential. The Public Works Department of Maharashtra State has been entrusted with the assignment of Improvement Two lane road with paved shoulder from district border Loha-Kandhar-Mukhed Eklara-Khanapur-Narangal-Sagroli-Biloli-Kundalwadi-Dharmabad-to state border MSH-16 & SH-268 Project-AU104 (Msh-16 from Loha Km. 297/400 to Khanapur Phatak Km 371/900 of Nanded District. Which is passes through forest area of Kandhar and Mukhed Tq. Nanded Dist. So, the study was carried out for alternate route going to Ambulga, Savargaon Niphani Kotgyal for bypassing this forest area. After study and analysis, it is recommended the correct route of major state highway MSH-16 & SH-68 Ambulga, Savargaon Niphani Kotgyal is the best and shortest option. There is no alternate route available. So existing route of major State highway MSH-16 & SH-268 is the route connecting Taluka and Market Places i.e. Knadhar Mukhed and this is also useful for connecting route. Hence re-alignment is not possible in between these chainages Ch Km 297/400 to 371/900 Km. Since the entire Project is upgradation of existing ROW with some improvement in curve the land acquisition remain bare minimum. However, since some part of road already passes through forest patches/compartments as reveals from forest map which are unavoidable as site specific and kept minimum. Thus minimum forest requirement is justified. (P-3)

- 5.6) Proposed area is not included in National Park, Wild Life Sanctuary or Nature Reserve. (P-217)
- 5.7) There are no cutting and felling trees involved in the project. (P-219)
