

**Site Inspection Report of Chief Conservator of Forests, Central Circle,  
Thrissur for the Proposal No. FP/KLIRRIG/153720/2022**

The proposed site for laying the underground pipeline for the construction of leading channel and providing DI pipe from Chelachuvadu sluice of Idamalayar Irrigation Project for recharging Puthenkulam in Malayattoor Nileeswaram Grama Panchayath which comes under the Malayattoor village in Ernakulam District, has inspected on 21.10.2022 along with Divisional Forest Officer Malayattoor.

The implementation of the proposed project is essential for the local people and the proposed diversion by lying under ground pipeline is no way a threat to the forest and wildlife. There is no other alternative way for this project. Considering the importance of providing water to the public, the proposed diversion of 0.0092 Ha is essential. The requirement of Forest land as proposed by the user agency is unavoidable and it is the bare minimum for the project and hence recommended.

Chief Conservator of Forests  
Central Circle, Thrissur .
