

SITE INSPECTION REPORT

The Commissioner, Coimbatore City Municipal Corporation, Coimbatore has submitted a Proposal through online application Form A, part I under section 2 of Forest (Conservation) Act 1980 for diversion of 3.64 Ha of Forest land which was given to the forest department as a Compensatory land in Madukkarai Village in Madukkarai Range for expansion of burial ground at Madukkarai Village located within Coimbatore Corporation limits in Coimbatore District.

I have inspected the above area on 29.12.2016 and found that there is no tree growth of ecological importance neither valuable tree on the proposed area. The canopy density is 0.20 to 0.30 with few Prosopis Juliflora bushes and Cylindropuntia ramosissima. Therefore and I recommend the expansion of burial ground by diverting an area of 3.64 Ha of the Forest land as the area required by user agency is minimum. Therefore I request that this proposal may kindly be considered in the interest of public for improving the facilities of the burial ground.

District Forest Officer,
Coimbatore Division,
Coimbatore.
