

RECOMMENDATION

The proposed CONSTRUCTION OF PARKING PLACE AT DALHOUSIE 0.0750 HACT in Muhal Moti Tiba. With the construction of this Parking place, the problem of traffic jams in the surrounding area shall be catered. It will give a boost to the tourism sector. The economy of the locals would be protected from the ill effects of noise and air pollution due to the frequent traffic jams. At present there are no such parking facilities available in the area so the road sides are used for idle parking which create panic. Hence the proposal is recommended for approval please.
