There are no protected Archaeological/ Heritage site/ Defense Establishment or any other important monument in the forest area proposed for diversion.
8		Whether the requirement of forest land as proposed by the user agency in Col 2 of part-1 is unavoidable and bares minimum for the project. If so recommended area item wise with details of alternatives examined	The user agency has proposed diversion of land of 7.14 Ha in Uttoor(FDPT) division & Khanapur division for a length of 10.19 Km and width of 7.00 Mtrs.  After field verification the actual Length of Forest diversion in Uttoor(FDPT) division is 6.95 Km. Thus, forming a BT road of 7.00 meters width will cause heavy loss of biodiversity. To minimize the impact of the road on biodiversity, the road width is reduced to 4.00Mt. Hence in view of protection of forest and requirement of up gradation of road, it is <b>recommended the existing width of road for 4.00 Mtrs</b> to be adopted for improving the BT road, instead of 7.00 Mtrs as proposed by the User agency and <b>the diversion area in Uttoor Division reduced to 2.78 Ha.</b>  . As per justification given by user agency and the field conditions, the barest minimum and unavoidable area for the project is <b>2.78 Ha.</b>
