RECOMMENDATION REPORT

TO WHOMEVER IT MAY CONCERN

Considering the fact that Forest land area of 38.38 Ha. Applied for diversion by Eastern Coalfield Limited in Tilaboni Mouza (38.38 ha.) is the barest minimum needed for doing underground mining in an economical way. There are 13085 trees of various girth(as mentioned in the detailed enumeration list) present in the land applied for diversion. It does not form part of any endangered wildlife habitat.

Moreover as the project is an underground Mining Project and does not require felling of trees so there is no effective loss of forest cover as well as wildlife habitat.

Hence the proposal is hereby recommended for approval.

(Nilratan Panda, W.B.F.S.)
Divisional Forest Officer
Durgapur Division
