

Site Inspection Report of Conservator of Forests, Eastern Assam Circle, Jorhat for the diversion of 19.976 Ha. For the proposed 400 KV New Kohima-New Mariani Transmission Line having Co-ordinate 26°10'36.73" N and 93°59'37.15" E.

The proposed diversion of Forest Land was inspected on dtd. 20-08-2018 by the undersigned accompanied by the Deputy Manager Rishi Gaur of the said project. The proposed diversion site is an open Forest in Doyang, Reserve Forest. Further, the proposed diversion of Forest Land of the above mentioned transmission line for an area of 19.976 Ha. falls under Doyan Reserve Forest and partly in Rengma Reserve Forest under Golghat forest Division. During my field inspection, I have found human habitat to be nearly 500 metres away and Doyang River about 400 metres away from the corridor of the said Transmission Line.

There is no Forest Right Act (FRA) settlement in area.

During Inspection trace or footprints of any wildlife was not noticed.

The Nambor-Doidrung Sanctuary is nearly 18 km to 20 km away from the said Transmission Line.

(R.K.Das, IFS)
Conservator of Forests,
Eastern Assam Circle, Jorhat.
