Inspection Report for Construction of Foot Bridge (135m x 3.00m= 405sqmt)
0.0405 ha at Kadambankudi inside Maharajapuram Reserved Forest of
Kumbakonam Range in Thanjavur Division for Creation of an Additional Source
with Pump House to Combined Water Supply Scheme to 893 Habitations in
Thanjavur District

I have inspected the Maharajapuram Reserve Forest, Notified in the Government letter No.44540 Forest III/88-1 Environment and Forests dt.16.11.1988 on Extent of 273.97ha and found that it has sparse growth of *Prosopis Juliflora*. Other than that, there is no native vegetation observed in the proposed area. The Kadampangudi village is a agriculture hamlet situated on the village and connected the Ayyanallur village. Therefore, I enclose the recommendation of the District Forest Officer, Thanjavur and recommended for the diversion, as the proposed Construction of Pump House to Combined Water supply scheme to 893 habitations in Nagapattinam district.

Conservator of Forests,
Thanjavur Circle,
Thanjavur.
