

SITE INSPECTION REPORT

The proposed site was inspected by the undersigned on 31-01-2022. The proposed area for diversion is to an extent of 9.2755 Ha under Lowairpoa Range of Karimganj Division.

During the period of inspection, the authorized person of the User Agency, the DFO Karimganj Division, the R.O. of Lowairpoa Range together with frontline staff were present and accompanied the undersigned.

During the period of inspection of the proposed site it is noticed that there are no archaeological/heritage site, defence area in the proposed site. There are no rare/endangered known species of flora and fauna found in the proposed area. The density of the proposed area for diversion is found to be around 60-70% depending upon different patches of forests. The user agency has not violated any provision of the F.C.Act, 1980 and no work has been started. The proposed area is recommended for diversion with suggestion to the User Agency to take sufficient precautionary measure to protect valuable trees so that least damage is caused to the forest cover and the environment in the light of the guidelines issued by the MOEF & CC.
