

Inspection Report

The site for construction of 132 KV D/C Transmission line from Chatra to Hunterganj for diversion of 53.2129 Ha. Forest land (In Chatra South Forest Division- Protected Forest 16.5026 ha. + GM (JJ)- 13.3748 Ha., total – 29.8774 Ha. & in Chatra North Forest Division- Protected forest. 13.5740 Ha.+ GM (JJ)- 9.7615 Ha. , total 23.3355 ha.) was inspected on 23.05.2022 with Project Incharge and site Engineer, APS, Range Officer Chatra and Hunterganj and other officers and staffs of JUSL and forest department . The soil along the proposed Transmission line is highly vulnerable to soil erosion. So proper soil conservation measures should be taken. The proposal is meant for construction and development of transmission system and also to mitigate the actual shortage of power due to inadequate transmission infrastructure in the area. A large no. Of people will be benefited by this project. In view of the aforesaid facts, the diversion proposal for proposal for 53.2129 ha. Forest land for construction of 132 KV DC Chatra-Hunterganj Transmission line is recommended.
