

SITE INSPECTION REPORT OF D.C.F, HAZARIBAG WEST DIVISION, HAZARIBAG

A total of 4.04 Ha. Protected Forest is proposed for diversion in Hazaribagh West Forest Division constiting of village Khodahar in Barhi Range. The inspection was done on 10.04.2019 along with JUSNL officials. The forest land in Khodahar highly degraded and vulnerable to soil erosion. The terrain is undulating and is covered by vegetation predominantly Sal, Eucalyptus and Palas the density of which is around 0.3. However, on inspection of the site it was found to be bare minimum requirement for the project. The present site for diversion falls under ESZ.
