**SITE INSPECTION REPORT OF DRILLING OF DEVELOPMENT WELLS AT
SUPHAYAM-I OF DFO GOLAGHAT**

The proposed drilling of development wells namely **DPDS and DPDT** on the existing site of **Suphayam-I** are located inside Doyang Reserve Forest under Jamuguri Range vide **Proposal No. FP/AS/MIN/119067/2021** and was inspected by the undersigned alongwith ONGC Officials, Chinnamora, Jorhat on 23.12.2021 and report is furnished as under:

The diversion area is 1.69 ha (Suphayam-I site) was made available during 1997, is open Forest inside Doyang Reserve Forest. During my inspection no rare, endangered, unique species of flora and fauna was found in the area. The proposed development proposal is a nonlinear project. The project aims to drill 2 nos of new wells DPDS and DPDT within the existing site of Suphayam-1. Forest Clearance for existing well Suphayam-I was granted during 1997 and the land is still in use by ONGC. The said development will be done to produce Oil and Natural gas from the wells.

There is no wildlife present in and around the forest land proposed for development. The proposed site is not a part of National Park, Wildlife Sanctuary, Biosphere, Tiger Reserve, Elephant Corridor, Wildlife Migration Corridor etc. The proposed development site is located at 17.90 Km (approx) distance from the nearest Protected area viz Nambor Doigrung Wildlife Sanctuary notified under Wildlife (Protection) Act. 1972. No any water body is seen in and around the proposed site.
