**RECOMMENDATION**

**Proposal No.:** FP/ML/IRRIG/44898/2020.  
**State Serial No.:** ML-014/2020  
**Proposal Name:** Telekali Flow Irrigation Project  
**Area applied:** 0.1 ha

The project proposal No. FP/ML/IRRIG/44898/2020 by the Water Resources Department, Baghmara for construction of irrigation dam across the small stream inside the Reserve Forest near Dumnikura sub-beat is to store water and use it for irrigating to the paddy cultivation . The submergence area is only 0.10 hectares of Angratoli Reserve Forest land and no felling of trees is involved. This project will supply water to about 28.00 hectares of cultivable area and will be benefited to 37 (thirty seven) families of Telekali village. Thus this project will not only enhance the annual income of 37 families but also improve the quality of life of population, enhance ground water recharge, provide water source for aquatic life, flora and fauna. In view of the importance of the project especially for the poor villagers and since the area being diverted is only 0.01 hectares with no felling of trees involved, the proposed Telekali Flow Irrigation Project across Telekali stream inside Angratoli Reserve Forest is recommended.
