

INSPECTION REPORT

The proposed site was inspected by me on 27.04.2022 along with the Wildlife Warden, Nagapattinam. This project is proposed for the Widening and Improvement of existing carriage way to 4 laning Poondiyankuppam - Sattanathapuram Section of NH-45 A under NHDP Phase IV diversion of 2.5553 ha in Gopalasamudram Reserve Forest. This project for the diversion of 2.5553 ha is for the Widening and Improvement of existing carriage way to 4 laning Poondiyankuppam – Sattanathapuram Section of NH-45 A under NHDP Phase IV is important as the road is congested one due to lot of tourists and public vehicles. As this project is essential for welfare of masses and saving lot of life due to reduction of accidents. There is no alternate land is available. Hence I have recommended the proposal.

Chief Conservator of Forests
