SITE INSPECTION REPORT

I have inspected the site of proposed road from Kudunuru to Botugudem situated in Dummugudem Range on 30.08.2019. The proposed road passing through in Compt.No.65A of Pedamidisileru R.F. Block. The details are as furnished below.

Sl. No.	Range	Section	Beat	R.F. Block	Compt. No.	Length in Kms	Proposed road width in Mtrs	Extn. Of the Area in ha.	Extn. Of the Area actual required for diversion in Kms	Extn. Of the Area actual required for diversion in Ha.
1	2	3	4	5	6	7	8	9	10	11
1	Dummugudem	R.Kothagudem	R.Kothagudem	Pedam disileru	65A	1.971	10 MTrs .	1.971	1.971	1.971

The User Agency proposed for 1.971 Ha. for the diversion of the forest land for the widening and upgradation of existing road from Kudunuru to Bodugudem. It is noticed that the existing road is laid with metal previously. The proposed road is passing along Taliperu Canal through Pedamidisileru R.F. of R.Kothagudem Beat, compt.No.65A.

The User Agency has to furnish RoFR certificate in Form-I along with Gramasabha Resolutions.

The site is falling in the forest type of Southern Tropical Dry Deciduous Forests (5A) as per Champion and Seth classification. The proposed forest land for diversion for the proposed project is barest minimum and unavoidable. The type of soil is Black soil. As per the available records the encroachment is noticed both sides of the proposed road by the villagers STs and SC communities of Kudunuru and Botugudem about 17 years back, wetland, paddy crop is noticed. The site is plain land and non-vulnerable to erosion. There are no any rare or endangered or unique species of flora and fauna found and no any protected archaeological or heritage site or defense establishment or any other important monument is located in the area. The proposed project is a public important project providing basic amenities in the remotest tribal villages in left wing extremism affected areas.
