PART-III

(To be filled by the concerned Chief Conservator of Forests)

1	Whether site, Where the forest land involved is located has been inspected by concerned Chief Conservator of Forests (Yes), if yes, the date of inspection and observation made in form of inspection note be enclosed.	As the project land is below 40.00 ha. (i.e. 35.94 ha.) Site Inspection by Chief Conservator of Forests is not required.
2	Whether the concerned Chief Conservator of Forest agreed with the information given in Part-II and the recommendation of Dy. Conservator of Forests.	Yes, I agree with the information given in Part-II and the recommendation of Dy. Conservator of Forests, Bramhapuri division, Bramhapuri that a detailed study of the proposed project area should be carried out by Wildlife Institute of India regarding the impact of the project on wildlife of the area and also regarding the mitigation measures to be adopted in case the project is approved by competent authorities. The project is not recommended unless such a study is carried out.
3	Specific recommendation of concerned Chief Conservator of Forests for acceptance of otherwise of the proposal with detailed reasons.	<p>The Project Agency demanded a biodiversity rich area of 35.94 ha. of Reserve Forest having 18024 trees. The area also is home to flagship species of the area like the Tiger and the Leopard, among others. The project is likely to have negative impact on the ecology of the area including the dynamics of Wild population of various species. Therefore the project is not recommended as such.</p> <p>However, a detailed study needs to be carried out by expert institute such as (Wildlife Institute of India) regarding the impact of the project on forest and Wildlife along with appropriate mitigation measures to be adopted to minimize negative impacts, before the project is considered by competent authorities for approval or otherwise.</p>
