

# **Site Inspection Report**

**Project Name- 2.2 MVA Power Supply to Garrison Engineers (MES) at  
Ramgarh Cantonment at 33 KV from 132/33 KV DVC's Ramgarh  
Substation through independent Feeder (0.95 Ha)**

**Proposal No- FP/JH/TRANS/151158/2022**

A proposal has been received by this office from Damodar Valley Corporation (User Agency) under FC Act for diversion of 0.95 Ha, forest land for non-forestry purpose. The project envisages the use of forest land for construction of 2.2 MVA Power Supply to Garrison Engineers (MES) at Ramgarh Cantonment at 33 KV from 132/33 KV DVC's Ramgarh Substation through independent Feeder. The power line would be underground in nature and is essential for increasing power requirements of Ramgarh Cantonment.

The site inspection of the forest land involved in the proposal has been done by me on 30.05.2023. It is found that the forest land required by User Agency is GMJJ in land records, mostly existing close to old Ranchi-Patna Highway. The said land has hardly any presence of tree but the type of forest in the area belongs to Eco Class-3 Forest. The land is mostly under temporary encroachment such as cattle yards. No alternate alignment is possible and the land proposed involves minimum diversion of recorded forest. No rare/endangered unique species of flora and fauna are found in the proposed diversion area for the said project.

Divisional Forest Officer
