

## INSPECTION REPORT

The proposed Re-diversion site has been inspected by me on 21-11-2020. The User Agency is requesting for the permission for construction of transmission line 220 Kv for Upper Bhadra Project, drawing line from Kanagalakoppa Village to Muttinakoppa Village. The project is a linear project and essential to supply electrical power to the water lifting pump houses constructed on the canal linking the Tunga River catchment with Bhadra Reservoir. Hence it is recommended to be considered for Re-diversion of the Forest Land.
