

### **Recommendation of Chief Conservator of Forests, Northern Circle Kannur**

The proposed diversion area of 0.0063 Ha forms part of Adoor RF under Kasaragod Range of Kasaragod Division is the existing coupe road being used by locals for their commutation to nearby town. The proposal of construction of bridge to connect Vellarikkaya Tribal Colony, does not require any tree felling, since construction of bridge need to be done in the existing forest coupe road across Pallanji River. Considering there is no alternate connectivity to tribal settlement is available for the commutation of tribal people and the beneficiaries are exclusively tribal people the project is recommended for sanction.

A handwritten signature in black ink is written over the text. To the right of the signature, the date '7.2.2020' is written in black ink.  
Chief Conservator of Forests,  
Northern Circle, Kannur.
