

Recommendation of Chief Conservator of Forests, Northern Circle Kannur

The proposed diversion area of 0.27 Ha forms part of Karadukka RF under Kasaragod Range of Kasaragod Division is the existing coupe road being used by locals for their commutation to nearby town. This proposal of Poovadka - Adukkathotty - Nellithattu Road, does not require any tree felling, since improving of road that is concreting need to be done in the existing Kacha road so that it can be made as Pacca motorable Road. Considering there is no alternate road is available for the commutation of local people and the beneficiaries are mostly the downtrodden people the project is recommended for sanction.

A handwritten signature in black ink is written over the text. To the right of the signature, the date '7.2.2020' is written in black ink.
Chief Conservator of Forests,
Northern Circle, Kannur.
