Dated: /10/2020

SITE INSPECTIOPN REPORT.

Subject: Providing drinking water supply scheme to Navile, Thoreshettihalli and other 53 villages of Maddur Taluk in Mandya District.

I have visited the proposed project area on 29/ 09/2020 and inspected the project site along with the Range Forest Officer, Maddur Range, Maddur and Assistant Conservator of Forests, Mandya Sub-division, Mandya. This is C&D class land transferred from Revenue Department to Forest Department. The status of land is identified in Deemed Forest list and I found that there are 10 trees in the project area. But, it is essential for the supply of water to the general public. Hence it is a suitable area for this project.

No rare and endangered unique species of flora and fauna is found in the proposed area. The project does not affect any monument of historical, recreational or archaeological importance including National Parks and Wildlife Sanctuary.

Deputy Conservator of Forest
Mandya Division, Mandya.
