

## **RECOMMENDATION**

The proposal for Chatra to Hunterganj 132 KV D/C Transmission Line of M/s JUSNL, is for transmission of power to the very backward areas of the Chatra district. Hunterganj areas of this district is still deprived of the electric power, which is highly required by the people for health, education, agriculture and other basic purposes. There is very strong demand of electric power by the people and therefore this proposal for diversion of forest land is recommended under the provisions of forest conservation Act 1980 and the forest conservation Rule 2003.
