## SITE INSPECTION REPORT

I have inspected the site on 26.08.2015 along with the Deputy Conservator of Forests and his field staff . On inspection of the site and perusing Reserved Forest Notification, it was noticed that the width of right of way provided was not included in area to be diverted. Accordingly, the User Agency and Deputy Conservator of Forests were instructed to correct the error. Now the corrected proposal has been submitted.

The proposed site is already being put to use by the villagers to reach the village. The proposed area does not have any protected archeological, heritage sites or defence establishments. As the proposal is for establishing connectivity to village and as the forest area required is unavoidable and barest minimum, the area may be diverted in favour of the User Agency after levying N.P.V., Compensatory Afforestation charges etc.
