

7

Specific recommendations of the DCF for acceptance or otherwise of the proposal with reasons.

The said proposed (OFC) inspected by me on 04.11.2016 along with the Range staff and User agency it is noticed that there is no existing trees and bushy growth like Eupatorium and Lantana etc., and other miscellaneous species are available and there is no fauna existing along this sketch. Hence there is no objection for sanction of the said proposal and once the project is completed, 4G communication get extended to as many remote villages as possible of this route. Further these 4G communications services will also benefit various Government Departments like Forest, Revenue, Police, Health, Education and many more in the better administration. Under the above circumstances permission may please be sanctioned for diversion of Forest land.
