

Inspection note, Finding & Recommendation with reason.

The proposed site was inspected on 31.07.2020. The Deputy Conservator of Forest & Subordinate staff were present and assisted during inspection. The factual details are stated below.

1. The proposed storm water drainage project is to be implemented in land which is partially protected forest and partially non forest Government land.
2. 0.09Ha. protected forest land is proposed for diversion for this project.
3. There are no rare/ endangered/unique species of flora & fauna found in the area. Also no archaeological site, defense establishment are present on the area concerned.

On the basis of the recommendation of the Deputy Conservator of Forest & the inspection done by undersigned, the proposal may be accepted on the following reasons

1. In order to speedy and frequent movement of vehicle, the proposal is very essential as it will help the people of surroundings and passing thorough NH – 327(E) and NH 327A road. This project will ensure the proper drainage in the proposes area.
2. The density of the protected forest is low. The acceptance of the proposal, as it entails, provision of compensatory afforestation along the road side, as it customary, may help to increase forest density & green cover.

Place :- Purnea
Date :- 03.08.2020
