

**INSPECTION REPORT OF THE CONSERVATOR OF FORESTS  
TERRITORIAL CIRCLE, MEDININAGAR (DALTONGANJ)**

The site under proposal for forest diversion for the purpose of construction of canal of Amanat Barrage Project in Manatu & Patan forest range in Palamau district was inspected by me on May, 16 2015. There is presence of forests on the proposed site, but for the sake of development of the state, diversion of 127.85 ha. of forest land may be done with the conditions that movement of vehicles, materials, men etc should be strictly done by the service lane as provided in the undertaking of the concerned user agency so that other forests are not affected.
