

Project Report

The regularisation of Land is not for any new or existing project on or to be started. The school is in possession of land since 1965 – 66 when it was established as full co-ed modern institution. Necessary infrastructures such as play ground, school buildings, teachers' quarters, hostel buildings for both boys and girls were built during the time i.e. during the reign of 12th Chogyal(king) Palden Thondup Namgyal.

Now since school is without any legal document of its possession of the land, this process is initiated to prevent any illegal encroachment on the land by the outsiders.
