11/21

Kind attention is invited to the references cited above.

I submit that the work of "Upgradation of existing NH 30 from Km.169.770 to 236.150 of Vijayawada to Jagadapur section to two lane with paved shoulders in the State of Andhra Pradesh" for rehabilitation and upgrading of the existing road section to 2 lane with paved shoulder configuration has been approved up by the Ministry of Road Transport and Highways under Annual Plan 2021-22. The starting chainage of the proposed road to be improved/upgraded is at km 169.770 (AP/Telangana border at Bhadrachalam). The proposed development corridor extents up to Kunta at chainage km 236.150 (AP/Chhattisgarh border).

The NH corridor under this proposed development is passing through 03 Reserve Forests i.e. Madhavarao Peta RF, Bandirevu RF and Pegha RF of Chintoor Forest Division (total linear length in forest area ~13.00 kms). The proposed improvement/upgradation works will require about 25.31 Ha of forest land to be diverted to non-forest purpose. Following are the hierarchy of the events taken place so far.

The DFO, Chinturu vide reference 3<sup>rd</sup> cited, on 14.07.2018 accorded permission for DGPS Survey to an extent of 50.62 Ha in degraded land in Compt.no.25 in Bhadrachalam R.F.

The PCCF, Guntur vide reference 5<sup>th</sup> cited on 12.01.2019 had authenticated DGPS maps and raw data and assessed compensatory afforestation of 51.05 Ha in lieu of 25.31 Ha of forest land.

The Regional Empowered Committee on 29.09.2021 reviewed the proposal and made some observations, which were communicated on 03.11.2021. Observations in brief are:

1. Legal status of the existing road i.e., whether the existing road is a notified RoW or any prior approval accorded by the Central Government under FCA.1980.
2. Reasons for not including the existing road portion under the area proposed for diversion.
3. Actual length and width of the road to be widened.
4. The proposed financial outlay i.e., Rs.152.277 lakhs to carry out compensatory afforestation over 51.05 Ha of degraded forest area including 10 years of maintenance appears to be insufficient.

//3//

The D.F.O, Chintur while submitting a detailed report on the above four observations to the Chief Conservator of Forests, Rajamahendravaram vide reference 16<sup>th</sup> cited, in addition to replies to the observations, he stated that the user agency had not included the forest area in the stretch from Km.202/890 to Km.203/000 (110 m) in Thantilanka extension RF. As per the calculations furnished there on 2.372 Ha of land shall have to be diverted. But this fact was not considered earlier when 25.31 Ha of land proposed for diversion.

In this context, it is submitted that the above mentioned stretch of land exists in Survey nos. 21 & 22 of Katukapalli village for which village map and FMBs of the Revenue department are available. As per the Adangal obtained from the MEE BHOOI portal, these survey nos are shown as Government lands but not as forest lands as contended by the DFO, Chintur.

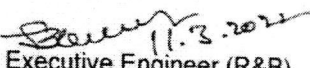

While the matter stood thus, the Joint Collector, East Godavari District, Kakinada held a meeting with DFO, Chinturu on 08.03.2022 at Kakinada for which the Deputy Executive Engineer (R&B) N H Sub Division, Kakinada had also participated. On deliberating the above issue, the Joint Collector, East Godavari District Kakinada is please to instructed to address the PCCF seeking permission for DGPS survey in the said reach to save delay and also to be treated as separate parcel and not to club this with the proposal which is already in the pipe line.

In view of the above, I request to kindly accord permission for conducting DGPS survey in the said reach (i.e., 110 mts length of the road) and also issue necessary instruction to the concerned Divisional Forest Officer (i.e., DFO, Chintur) at an early date in view of the status of the lands is shown as revenue lands.

This is submitted for favour of information and taking further necessary action.

Yours faithfully,

  
I/c Executive Engineer (R&B)
