

**SITE INSPECTION REPORT OF
DISTRICT FOREST OFFICER, DINDIGUL DIVISION, DINDIGUL**

I have inspected the proposed area of 0.2712 Ha. falling in Sirumalai West Forest Block – I Bit – IV Reserve Land, Sirumalai Range for the erection of 22 KV underground electricity power line from Agasthiyarpuram to Sirumalai Thenmalai Village in Dindigul District on 12.10.2015. The proposed area is having plain topography and is less prone to erosion. The density of the Vegetation is 0.4 %.

There is no trees to be felled for this project. There is no endangered species of flora and fauna available in the said place. The proposed area for diversion do not have any important monuments which area archaeological and heritage sites etc. The proposed area for the project location specific and unavoidable and the area requested for the project is barest minimum.

The proposed area, the user agency has not carried out any work which contravenes to the Forest Conservation Act 1980. Hence the diversion of 0.2712 Ha. of Forest area for this project is recommended for kind consideration since the livelihood and status of the people will be increased and the basic amenities such as providing protected drinking water facility.

District Forest Officer,
Dindigul Division,
Dindigul.
