		Attached herewith.
5	Detailed muck disposal scheme needs to be submitted	The pipeline is to be laid on surface, so on muck is to be generated that requires disposal. Any extra material used for fixation of pipeline if left unused will be completely cleared.
6	Justification for location of the project in forest land (countersigned by DFO) shall be submitted	Provided in FORM – A, Part – I, Section D (i), uploaded on webportal. Submitted to DFO Office dhar along with hard copies of proposal submitted (copy attached herewith)
7	It is not clear from the proposal that what is before and what is after proposed alignment shall be clarified	There has to be no difference in alignment of pipeline route from what is proposed in application.
8	Compensatory afforestation details/scheme shall be submitted and uploaded on webportal	We herewith Request DFO Dhar, to kindly arrange for providing scheme of compensatory afforestation.
9	Administrative approval/ sanction letter of the project needs to be submitted	Provided in FORM – A, Part – I, Section A-3 (xvii) uploaded on webportal. (Authorization letter from MPTB attached herewith)

As per the data of Dept. of Public Health & Engineering Dept., Govt. of Madhya Pradesh, Sulibardi Village is 'Dark Zone' implies no ground water availability. Practically we tried two borewells, but there is absolutely no water available.

Only seasonal availability of water during monsoon period. During other part of year, water is supplied through water tankers which makes is necessary to provide for pipeline from nearby malipura for round the year availability of water.

As no source of water is available in sulibardi for round the year supply of water, we request you to kindly provide for permission to lay pipeline from nearby Malipura water source upto Sulibardi.

Thank you!
