

## **Impact of Project on adjoining forests**

\*\*\*\*\*

The proposed diversion area of 0.02 ha forest land for erection of obstacle light mast for aviation purpose at Kadapa Airport falls in Core and Eco-Sensitive zone area of Sri Lankamalleswara Wildlife Sanctuary. The impact of the project on the flora & fauna to the adjoining forests is negligible because the area proposed for diversion is meager and major destruction / damage to the flora & fauna also negligible.

Divisional Forest Officer  
Proddatur (WL) Division
