

Government of Tripura
Office of the District Forest Officer
North Tripura, Dharmanagar

Site Suitability Certificate

1. This is to certify that Degraded forest land having areas of 15 Ha and Khas land having area of 20 Ha(total 35 Ha) and are suitable for compensatory afforestation through AR and ANR method respectively and from management point of view and there is no encroachment in the area.
2. The 20 Ha Govt Khas land has a good number of trees and has a density of over 60% along with other woody shrubs which may be undisturbed, and this 20 Ha of Govt Khas land can accommodate an additional 5000 seedlings through ANR to enrich the existing forest (as per decision support system tools and also other physical verification reports), so in order to accommodate the planting of the remaining 15000 seedlings, an additional land of 15 Ha has been chosen under Chandipur Mouja of Kanchancherra Forest Beat, where AR plantation can be carried out, with plantation of 1000 seedlings per ha area.
3. The project of 15 ha is situated at Chandipur Mouja of Kanchancherra Forest Beat under Kanchanpur Forest Sub-Division, where there shall be AR plantation with 15000 seedlings to be planted, This area is a degraded area with less than 10% density of trees coverage.
4. This area is infested with full of weeds and bushes, hence needs special attention in order to create a good patch of forest.
5. Further the Khas land of 20 Ha is located at Rahumcherra Mouja, where 5000 seedling shall be planted across 20 Ha are through ANR.

Total of CA area			35					

6. The patch is not a natural habitat of wild animal including elephants, hence needs to be developed into a dense forest from the present degraded status.
7. Availability of water is not a problem here; hence scope of surviving of transplanted seedling is more.
8. Soil is fertile and suitable for miscellaneous species of planting.
9. Availability of labour is a plus point here as there are villages nearby.
10. People all around this area including villages are in a shortage of wages hence they will have a chance to increase their earning for their livelihood.
11. There is a scope to enhance the protection activity in this area with the involvement of engagement of villages for different works in connection with the creation of plantation.
