

Certificate regarding Suitability of Area for Compensatory Afforestation

The area proposed for compensatory afforestation on Non-Forest Land at village Najote in lieu of Forest Land being diverted under Forest Conservation Act, 1980 for construction of Shahpur Kandi Dam (SPKD) Project, has been selected in 01 (One) patch of State Land falling in village Najote of Tehsil Lohai-Malhar in Kh. No. 793/720/671/616/610/582/111. The selected patch for carrying out compensatory afforestation is a degraded piece of State Land with canopy density of 0 to 0.1. In order to compensate the loss of forest cover involved in the Project, this patch is proposed for compensatory afforestation through Artificial Regeneration (AR) and allied activities with plantation of suitable local/indigenous species.
