

REF: NBBG-SPGL-Forest- 31

Date: 28.10.2022

To,

The Divisional Forest Officer (T)
Goalpara Forest Division,
Goalpara

Sub: Construction of 400 kV D/C Bongaigaon-Nangalbibra Transmission line – intimation regarding *provision of additional tower height for safety of wild elephants.*

Dear Sir,

This is to inform you that two nos. of transmission line i.e.- 220 kV Salekathi to Agia and 400 kV Salekathi to Mirza are already running through Panchratna Reserve Forest under your jurisdiction. Proposed 400 kV D/C transmission line from Bongaigaon to Nangalbibra also run parallel to these two existing transmission lines in Panchratna reserve forest area under Goalpara division. Keeping in view the safe movement of elephants and other wildlife in the reserve forest area, minimum height of each tower shall be kept by 42 to 48 meters by maintaining the minimum ground clearance of the conductor at a null point by at-least 15 meters by providing additional 6 meters clearance in the forest area.

This is for your kind information and necessary action.

Place : Goalpara
