* During the post mine closure period (30th to 32nd year), part of the crown dump will be fully rehandled and backfilled into the residual void (below surface level) while part of the crown dump (with an extent of 138 ha) will be reduced in height from 100m to 80m and backfilled.

In the Mining Plan, provision for space for a washery has been made. The decision regarding capacity and layout of washery will be reached after thorough investigation.

The rejects generated from the washery could also be backfilled into the quarry voids after taking permission from the relevant authorities.

v. Surface OB Dump Reclamation

The surface dump being of temporary nature is proposed to be planted with cash crop type trees (eucalyptus, semal, bamboo and fruit trees (banana, orange, etc).

* The surface dump constructed during the initial years (1st to 6th year) over the coal bearing area will be rehandled between 7th and 20th year and backfilled.
It is advisable to plant cash crops/ trees on it for such a short period of existence like bamboo, Semal, Eucalyptus etc.

15.3.2 Post reclamation land use

The first step in a successful reclamation programme is to decide the post reclamation land use. The post mining land use with environment management is given in Table 15.9.

Notes : * Top soil dump of 60 Ha. was over the coal bearing area before 10th year after which it reduced to zero by 15th year as area under it was excavated, the topsoil in subsequent years was stacked over the backfilled area

** Surface water reservoir in facilities area measuring 5.0 Ha will be backfilled in the post mine closure stage (OC+UG combined)

*** Surface dump will be rehandled from 7th year to 20th year and area below it excavated

#. Green Belt of 36.07 ha = 23.63 ha along Kelo river 45 m west side and 15 m east side + 12.44 ha over 7.5 m along ML boundary.

During post mine closure plan period, agriculture is proposed instead of plantation over the rehandled crown dump area as well as over the backfilled area obtained as a result of reducing the void except over 211.319 ha including the crown dump of 138 ha which will be left for forest use as in pre-mining scenario.

- The surface dump will be planted with short life cash crops (bamboo, Semal, Eucalyptus) as it is to be rehandled and backfilled between 7th and 20th year.
- The infrastructure area of 55.94 ha includes 5 ha settling tank, 5 ha left for public use and the remaining 45.94 ha dismantled facilities and reclaimed.
- During the period of OC post mine closure (30th to 32nd year), the East Pit void will be reduced from 191.78 ha to zero ha by rehandling part of the West Pit crown dump of 100m height will be reduced to 0 m (general ground level) from over the backfilled area to backfill the remaining void except over 138 ha area where the crown height will reduce to 80m to contain a residual OB volume of 72.37 mcum(B). Similarly remaining 135.91 ha (60m depth) void in West Pit area will be completely backfilled.

15.4 AFFORESTATION

a) *Plantation during mining*

A plantation program over life of the mine has been planned in a phase wise manner. The plantation will be started from first year of mining along the boundary of ML area. A 7.5 m width of green belt development around the ML area will be carried out and more width of green belt will be taken up wherever space is available. Plantation over backfilled area will be commenced from 8th year of mining. A thick plantation is proposed to be provided and maintained around the mining area and along the roads. The yearly requirement of plants during the various years and stages of the mining project is as shown in the Table 15.11.

* Total backfilled area of 2440.55 comprises of 2025.77 ha planted (out of which 175.249 ha will be returned as forest land and 1850.52 ha will be for agriculture use) +414.78 ha area made fit for agriculture. Thus, total agriculture land in backfilled area of 2265.30 ha comprises 1850.52 ha made fit for agriculture after cutting trees + 414.78 ha directly converted to agriculture after backfilling.

Out of 2583.48 ha ML area, 2440.55ha will be backfilled. Out of backfilled area of 2440.55ha, 211.319 ha (during pre-mining 75.945 Ha of Protected Forest land and 135.374 Ha of Revenue Forest land) will be converted into forest use while the rest 2265.30 ha will be useable as agriculture land where as in facilities area 45.94 ha and in backfilled settling pond 5 ha will also be useable as agriculture land. Hence the total land useable as

agriculture land will be $2265.30 + 45.94 + 5.0 = 2316.24$ ha. The plan showing mine closure at the abandoned stage is given Plate XXXVI.

Green Belt details

The year/stagewise green belt details are given in column no. 4 of Table 15.11 above. The total area under green belt will be 36.07 ha. To fulfill the requirements of nursery plants, a nursery will be established at the site. During peak requirements, additional plants will be transported from Govt. / Forest nurseries, located around the area.

15.4.1 Water quality management

Hydro-geological Study has not yet been done. It will be commissioned shortly and the study submitted to MOC.

a) Surface water regime

The area has flat to undulating topography. The ground elevation ranges from 242 m to 303 m. General slope of the ground is towards South. The easterly flowing Kelo River constitutes the main drainage system of the block. Kelo River is flowing across the coal block towards East and its diversion is not proposed. It will be protected by leaving statutory barriers. A number of small streamlets drain the terrain in various directions giving a sub dendritic drainage pattern. Other than nalas and rivers, there exist a number of surface water bodies like rainfall fed ponds/dug wells etc. within the buffer zone.

b) Ground water

The district is mainly underlain by crystalline rocks of Proterozoic age belonging to Chota Nagpur gneissic complex. Presence of sandstone of Lameta Formation (infratrappeans) and Deccan trap basalt though insignificant, have also been reported. Extensive Lateritisation with occasional bauxite deposits are also found.

Ground water occurs under water table condition in, laterite and weathered mantle. It occurs under semi-confined to confined conditions in the deeper fractured basalts. The depth of water level varies from 4.67 to 12.34 m bgl during pre-monsoon period and from 1.43 to 9.35 m bgl during post-monsoon period in the shallow aquifers. The long term (decadal) trend analysis of water level indicates that about 13% of the wells in pre monsoon and none of the wells in post monsoon period show a significant (20 cm/year) falling trend. The exploration by Central Ground Water Board had indicated presence of potential fractures upto 90 m bgl. The optimum depth of bore wells in the district is found to be between 50 to 90 m bgl. (<http://cgwb.gov.in/nccr/Raigarh1.htm>)

c) *Water quality*

Water quality survey to assess the quality of both surface & ground water has been conducted during the summer season. The results of 2 surface water samples and 2 ground water samples are given for assessing the water quality in core and study area. The samples were tested as per the drinking water standards (IS:10500) and the test results show that all the elements concentration is below permissible limits. The details of water test analysis are given in Table 15.12.

i) Water balance

Industrial water required for washing, sprinkling on mine roads for dust suppression and for watering the mine site plantations, will be supplied from pumping installation at mine sump and its surface reservoir after adequate water is available in the mine. However, in the initial stage, the requirement will have to be met from the ground water through bore wells/ Kelo river.

The drinking water will be supplied from bore well and stored in overhead tank near the facilities area and distributed through pipe lines to different facilities area for drinking and domestic purposes.

Total net requirement of water for mining and allied activities are estimated as 1995 m³/day. Out of this 1239 m³/day will be potable water and the rest 756 KLD will be required for industrial use in addition to the 790 cum/day reclaimed water from colony STP which will be reused.

The break up of the required water for different activities is as follows:

TABLE 15.13
WATER REQUIREMENT

i. Potable water	Daily requirement, cum

* Colony site will be outside the ML area.

As the water seepage into the OC mine workings is expected to be more than the requirement from 5th year onwards (refer table 7.2 in Chapter 7), the water requirement projected above can be easily met from the mine water after 5th year.

ii) Effluent from mine

- i. To prevent surface and ground water contamination by oil/grease and sewage waste, following control measures are proposed to be implemented.

- Leak proof containers will be used for storage and transportation of oil/grease. In the store also, the container containing oil/grease will be kept in empty safe open containers of higher volume than the containers to avoid oil/grease spillage. The area over which oil/grease is handled will be kept effectively impervious. Any wash off from the oil/grease handling area or workshop will be drained through impervious drains, collected in specially constructed pit and treated appropriately to remove any oil/grease and the water will be recycled. The oil grease will be sold to authorized vendors and sludge disposed off in specially constructed pit.
- The sewage waste generated will be drained by underground impervious drains, lead to appropriately designed septic tanks and soak pits to prevent any pollution of surface or ground water.

- ii. The surface and ground water in and around the mine, loading plant and infrastructure will be regularly tested and appropriate control

measures adopted in case of any pollutant is detected above the prescribed limit.

- iii. All stacking and loading areas will be provided with proper garland drains equipped with baffles to prevent wash offs from reaching the downstream natural channels.
- iv. A domestic waste water treatment plant will be provided in colony so that the water after treatment can be reused.

iii) Storm water

Control measures to be adopted are briefly discussed below:

- Check dams will be provided to prevent solids from wash off and screen if any from the mine related activities.
- Peripheral bunds will be erected on the outer edge of the abandoned benches before reclamation so that the soil is not carried away by storm water.
- A water gradient of about 1 in 100 will be kept at every bench towards inside of the bench to prevent formation of gullies in the bench slopes causing serious erosion.
- Chutes will be constructed by using local stone or masonry to guide the water in areas with loose soil to prevent erosion and uncontrolled descent of water wherever necessary.
- Construction of garland drains around freshly excavated and dumped areas so that flow of water with loose material is prevented. The mine water will be passed through specially constructed settling ponds to arrest any loose material being carried away with water.
- Any areas ~~with loose debris within the lease~~ hold will be planted.

iv) Impact on water quality

The surface water quality is likely to be affected with higher load of suspended solids by the following:

- Wash off from dumps
- Soil erosion from mine and roads
- Pumping out mine water to surface water channels

The outside dump may contribute to the pollution of surface water in terms of suspended solids. Since dumping location proposed to be carried out is at a safe distance (2 km) from existing surface water channels i.e. Kelo River, it will have limited impact on water quality. The pumped out water during dewatering may carry higher levels of suspended solids. Other sources of pollution are by oil spillage at the pit head and at the mine site

infrastructure viz. light vehicle workshop, lubricant and oil storage area resulting in oil and grease contamination of surface water if appropriate control measures are not adopted. Control measures like check dams will be adopted to counter any solids being carried away by precipitation.

Ground water pollution can take place only if dumps and stock piles contain harmful chemical substances, which may get leached by precipitation of water and percolate to the ground water table, thus causing water pollution. However, this is not the case with this mine, as neither the coal nor the OB, contains any harmful ingredients which may leach down to the water table and pollute it. Therefore, no adverse impact on ground water quality is anticipated considering this aspect. The leaching down of pollutants (oil, grease etc.) to the ground water may render the water un-potable and hence cannot be used by the local people.

The percolation of sewage waste from the pit head as well as mine area can also pollute the ground water if control measures are not adopted as envisaged in the management plan. Meager amount of sanitary waste, expected to be generated from various facilities will be treated properly through septic tanks and soak pits and is not anticipated to cause any water pollution.

v) Measures to minimise adverse effects on water regime

a) Effluent from mine

i. To prevent surface and ground water contamination by oil/grease and sewage waste, following control measures are proposed to be implemented:

- Leak proof containers will be used for storage and transportation of oil/grease. In the store also, the container containing oil/grease will be kept in empty, safe and open containers of higher volume than the containers to avoid oil/grease spillage. The area over which oil/grease is handled will be kept effectively impervious. Any wash off from the oil/grease handling area or workshop will be drained through impervious drains, collected in specially constructed pit and treated appropriately to remove any oil/grease and the water will be recycled. The oil grease will be sold to authorized vendors and sludge disposed off in specially constructed pit.
- The sewage waste generated will be drained by underground impervious drains, lead to appropriately designed septic tanks and soak pits to prevent any pollution of surface or ground water.

measures adopted in case of any pollutant is detected above the prescribed limit.

- iii. All stacking and loading areas will be provided with proper garland drains equipped with baffles to prevent wash offs from reaching the downstream natural channels.
- iv. A domestic waste water treatment plant will be provided in mine office area so that the water after treatment can be reused.

b) Storm water

Control measures to be adopted are briefly discussed below:

- Check dams will be provided to prevent solids from wash off and screen if any from the mine related activities.
- Peripheral bunds will be erected on the outer edge of the abandoned benches before reclamation so that the soil is not carried away by storm water.
- A water gradient of about 1 in 100 will be kept at every bench towards inside of the bench to prevent formation of gullies in the bench slopes causing serious erosion.
- Chutes will be constructed by using local stone or masonry to guide the water in areas with loose soil to prevent erosion and uncontrolled descent of water wherever necessary.
- Construction of garland drains around freshly excavated and dumped areas so that flow of water with loose material is prevented. The mine water will be passed through specially constructed settling ponds to arrest any loose material being carried away with water.
- Any areas with loose debris within the lease hold will be planted.

c) Measures to minimise adverse effects on water regime

During the process of mine rehabilitation and with the completion of backfilling, a water body will be created in the mined out pit which will act as water reservoir improving the ground water recharge, source of attraction for fauna and will help in the maintenance of afforested areas. To enhance aesthetic appearance, parks and lawns will be made around the water body.

15.4.2 Air quality management

i. Air quality

Ambient air quality monitoring results of 5 different stations including 1 station within the core area is given in Table 15.14. The monitoring results

indicated that the air quality is good and conforms to the standards stipulated for rural areas.

Source: National Ambient Air Quality Standards vide CPCB Notification B-29016/20/90/PCI-L dated 18th November 2009

As is apparent from the analytical data, the ambient air quality in the region is well within the standards specified as per the Air (Prevention & Control of Pollution) Act, 1981.

ii. Ambient noise quality

Noise level survey has been conducted and results at 5 locations including 1 at core zone and 4 in the buffer zone is given in Table 15.16. The noise level monitoring data was recorded round the clock for 24 hours. The ambient noise levels were found within the permissible limits as per the statutory norms.

Impact on air quality

The opencast mining operations are prone to generation of higher levels of SPM and to a limited extent of SO₂, NO_x and CO due to blasting, fuel, oil combustion, burning of coal etc. However, there are no point source emissions. The OB will be transported by 150 T and 100 T R.D. trucks to surface dumps and later on, as soon as decoaled area is available suitable for backfilling, to the site of back-filling. The coal will be transported by 85T/100 T R.D.(CB) trucks to the coal receiving pit/crusher and further transported to the plant by conveyors. This may cause increased air pollution along the roads, if adequate control measure like regular maintenance of road, tree plantation along road and maintenance of leak proof truck bodies are not taken.

Impact on noise level

Noise is unwanted and unpleasant sound which causes distraction, disturbance and annoyance. Continuous exposure to high level of noise can impair human hearing power.

The mining activities generate noise mainly on account of:

- Operating mining machinery
- Use of explosives
- Moving road vehicles

The impact of this airborne noise will be more on the operating personnel and on the persons working nearby and not so much on the surroundings. The noise of activities may also disturb animals/birds living in the surroundings forcing them to change their habitat. In the present case, the noise caused will be mainly restricted to the core zone. The noise level data recorded at various places in the study area is well within the desired limit. But, the future establishment of noise due the proposed project activity may pose some problem if project management does not adopt appropriate control measures.

Air and dust pollution control measures

The SPM, CO, SO₂ and NO_x concentrations are within limits as already discussed earlier. The mining operations and related activities are anticipated to increase the levels of SPM and gaseous pollutants to a limited extent. The control measures to be adopted are mentioned in the following paragraphs:

i. Controlling fugitive dust

Dust particles, which are normally generated during mining operation and transportation, deteriorate the ambient air quality. Adequate control measures are, therefore, proposed to be taken during mining operations, transportation and loading operations. These control measures are discussed as follows:

a) Mines

- a) Dust suppression systems (like water spraying) will be adopted at:
 - Faces before and after blasting
 - Faces while loading
- b) Dust extraction systems will be used in drill machines and coal handling systems.
- c) Dust generation will also be reduced by using sharp drill bits for drilling holes and drills with flushing system.

b) Haul roads and stock-piles

- Dust suppression system (like water spraying) would be adopted at roads, which are used for transportation. Fixed sprinklers (Whirling) have been proposed with timers to be installed along the haul roads and coal transportation roads to suppress the dust.
- Transport vehicles shall be maintained leak proof.
- Suitable dust suppression systems such as mist sprays with or without chemical will be provided at appropriate places for preventing dust pollution during handling and stockpiling of coal.
- Transfer points of coal will be provided with appropriate hoods/chutes to prevent fugitive dust emission.

ii. Preventing dispersal of air borne dust

In addition to the control measures proposed during mining and transportation operations, following steps will be taken to prevent air pollution due to airborne dust:

- Dense tree belts will be planted around the mine and sites housing handling/ loading facilities.
- Plantation over already mined out area will be done after backfilling as per schedule (with minimum gap between excavation and afforestation)
- Dust masks will be provided as safety measure to the workers, engaged at dust generation points like drills, loading/unloading points, etc.

iii. Measures to mitigate CO levels

It has already been discussed that the concentration of CO in the ambient air is negligible and is far below the prescribed limit of CPCB and is not anticipated to exceed it in future.

Still all heavy and light vehicles shall be tested for pollutants concentration in their exhausts regularly and well maintained. Strict vigil will be kept in and around the operational area for any fire which shall be immediately controlled.

iv. Measures to mitigate NO_x levels

The main reasons of production of NO_x gases are:

- a. Poor quality of explosive having large oxygen imbalance which can be due to following reasons:
 - Manufacturing defect
 - The use of expired explosives in which disintegration of ingredients has taken place.
- b. Incomplete detonation is caused mainly due to low primer: column ratio.

To ensure that NO_x levels do not increase during the proposed mining operations, the following control measures will be adopted:

- a. Good quality explosives will be used for which the oxygen balance will be checked from time to time. The expired explosives will not be used for which a strict vigil will be kept on the date of manufacture. Even as a normal procedure, all explosives will be subjected to a visual inspection and if disintegrated ingredient are spotted, the explosives will not be used even if it is within expiry date.

- b. Primer: Column ratio will be rationalised. The ratio thus established, for producing minimum NO_x, will be adhered to.

The mine ambient air quality will be regularly tested to detect the presence of any pollutants above prescribed limits and appropriate measures will be adopted.

15.4.3 Noise and blasting

a) *Measures to control noise pollution*

The following control measures will be adopted to keep the ambient noise levels below permissible limits of 75 dB (A).

- i. Provision and maintenance of thick tree belts to screen noise.
- ii. Avenue plantation within the project area to dampen the noise.
- iii. Proper maintenance of noise generating machinery including the transport vehicles will be ensured.
- iv. Provision of the air silencer to modulate the noise generated by the machines will be made wherever required.

To protect the workers from exposures to higher noise levels, the following measures will be adopted:

- i. Provision of protective devices like ear muffs/ear plugs to those workers who cannot be isolated from the source of noise.
- ii. Confining the noise by isolating the source of noise.
- iii. Reducing the exposure time of workers to the higher noise levels.

15.4.4 Waste management

i. *The surface dumps*

There is only one surface dump proposed which will be located over the coal bearing area in the southern portion of the West pit area. This dump will be spread over an area 380 ha by 5th year end and will accommodate 197.50 mcum (L) OB waste upto that year. The Dumping will start from 1st year and continue upto 6th year however the exclusive dumping into this surface dump will be upto 5th year after which part of the OB will be backfilled in 6th year. The full height of the dump will be 90m in 6th year. No OB will be required to be disposed over the surface dump after 6th year.

ii. Backfill dump

Backfilling will start from 6th year of the project operation with a quantity of 54.13 mcum(L). During 6th year partial backfilling will be done and then upto final year full backfilling will take place concurrent with mining.

iii. Top soil dump

The total topsoil generated will be 14.64 mcum (B) during the life of the mine. Unutilised part of the same will be stacked separately in a soil stack pile located beyond the surface dump over the coal bearing area within West Pit area of 60.00 Ha. It will be used for growing plants along the fringes of the site roads and reclamation of surface dump and backfilled area. The top soil stockpile will be low height not exceeding 6 m and will be grassed to retain fertility. Besides this, there would be temporary stacks near the excavation area and area to be reclaimed which will be made use of for concurrent filling without bringing the topsoil to the soil stack near the OB dump.

Year wise top-soil generation and disposal is given in the table 15.17 below.

**TABLE 15.17

15.4.5 Void

The remaining void area of 331.06 ha (195.15ha in east pit with 170m depth upto pit floor + 135.91 ha in west pit with reduced depth of 60m as a result of partial backfilling) of the excavated pits will be at the end of mine life 29th year. The voids will be completely backfilled during post mine closure period 30th to 32nd both in East as well as West pit. Plate XXVI shows the final

stage at the end of mine operations with external dump rehandled and final void.

15.4.6 Tailing dam management

In the Mining Plan, provision for space for a washery has been made. The decision regarding capacity and layout of washery will be reached after thorough investigation. The rejects generated from the washery could also be backfilled into the quarry voids after taking permission from the relevant authorities. However, quantification of rejects and tailings is not possible at this stage as the washability study is still under preparation. Therefore, the question of tailing dam management after the study is completed and circuit is frozen.

15.4.7 Infrastructure

Important surface features can be seen in Plate-I and IV.

i. Habitation within the block:

Habitation of following villages is lying within the block (Refer Table 15.18).

TABLE 15.18
HABITATION OF VILLAGES LYING WITHIN THE BLOCK

Jhinku Bahal	599 (6.24)
Total	9598* (100)

A perusal of Plate-IV shows the location of all the above village habitations within the block.

ii. The following road network is lying within the block:

Road from Bajarmura to Ghargoda (approx 11.6KMs) and Milupara to Tamnar (approx 3 Kms) are passing through the block.

iii. The following network of drainage and canals is lying within the block:

Kelo River is flowing across the coal block towards.

iv. Forest within Block

75.945 Ha of Protected Forest land and 135.374 Ha of Revenue Forest land is present within the mine lease area.

(A) Surface reorganization required (refer Plate IV)

- a. Roads from Bajarmura to Ghargoda (approx 11.6 KMs) and Milupara to Tamnar (approx 3 Kms) will be diverted.
- b. Kelo River is flowing across the coal block towards East - Diversion is not proposed- will be protected by leaving statutory barriers.
- c. 75.945 Ha of Protected Forest land and 135.374 Ha of Revenue Forest land is present within the mine lease area, which needs to be diverted for mining purpose after obtaining forestry clearance from the Ministry of Environment and Forest, Govt. of India under the Forest (Conservation) Act 1980.
- d. A proposed alignment of railway line is passing through the block. The length of railway line passing through the block is 4.7 km. The width of the corridor for proposed railway line is 90 m (45 m on either side of tracks). During Public hearing held on 29.01.2016, MSPGCL has given the proposal for re-routing the alignment along periphery out side the block boundary citing the reason of blocking of 30 Mt of coal reserves. (Refer **Annexure 3-4**)

(B) Need of dismantling the present facilities

There are no such existing facilities which will require to be dismantled. However there are some villages to be rehabilitated for which due care will be taken.

(C) Future proposed use

The coal mined will be loaded on to the closed conveyor for onwards transportation to the TPP located within 10 km of the mine.

(D) Maintenance of facilities

Roads from Bajarmura to Ghargoda (approx 11.6KMs) and Milupara to Tamnar (approx 3 Kms) will be diverted.

15.4.8 Safety and security

The life of the OC mine operations is 29 years. During mining operations some of the safety precautions will be implemented are as under:

- i. Erecting barbed wire fencing around the areas being excavated
- ii. Erecting barbed wire fencing around the areas being dumped
- iii. Erecting bunds / toe walls around the surface dumps to prevent damage to property or injury to persons by rolling stones.
- iv. After abandoning mine, the OC workings are to be effectively protected by a chain link with masonry pillars.
- v. Isolation stoppings will be constructed underground.
- vi. The shafts and inclines will be sealed in the post mine closure stage.

After finishing the mining operations, all areas which are inaccessible and are dangerous will be fenced. In the post mining scenario, proper approach to the water body will be made for men and animals and the routes will be thrown open for the public.

15.5 ECONOMIC REPERCUSSIONS OF CLOSURE OF MINE AND MANPOWER RETRENCHMENT

Mine closure always has environmental, social and economic impacts associated with it. While the environmental impact is largely addressed, the socio-economic aspects do not receive the same degree of attention.

During the life of the mine, the communities in the surrounding villages come to depend on the same for some of their economic activities due to development of small business linked to the mine and its employees.

The closure of the mine brings about not only loss of jobs for the direct employees but also affects the likelihood of those who have come to depend upon it indirectly. We thus have two classes of affected people.

The direct employees shall be offered jobs at alternate sites of the organization and those willing to relocate shall be transferred there. Skill up-gradation training would also be imparted to such willing employees to make them suitable for alternate jobs where required.

Mine closure is an inevitability and it is anticipated that by the time the closure occurs, the community shall have become self sustainable.

For those, who due to their advanced age or other constraint, cannot relocate to alternate site or alternate employment, the company will explore the possibility of offering them an opportunity to opt for voluntary retirement with commensurate benefits. The provision apart from financial settlement would also include retention of the company house provided during the employment.

The indirectly affected persons would also be rehabilitated by offering them alternate means of livelihood by undertaking plantation and cultivation in the reclaimed land, poultry, craft, handloom, pisciculture etc.

To effectively implement the SHG projects, the company shall provide following facilities to the affected persons.

- Training for skill improvement
- Financial assistance for procurement of land, plant and machinery and raw material required, If any
- Assistance for undertaking market surveys, marketing of the finished products etc.

It is proposed to maintain the following facilities at the mine site post mine closure.

1. Training Centre with required staff
2. Warehouse facility of storage of agriculture and other projects as and when required.
3. Local market place.

i. Number of local residents employed in the mine, status of the continuation of family occupation and scope of joining the occupation back

Employment of the local residents in the mine will depend on requirement of the project. Preference will be given to the project affected people (PAP). Training will be provided to the eligible PAP and after successful completion of the training they will be placed in the project according to their trade subject to vacancy. The families have ample scope to take up the agriculture activity after the closure of mines as the reclaimed land will be handed over to the PAFs through the District Administration / state Govt. The reclaimed land will be made suitable for agriculture with irrigation

facilities before handing over. We will encourage the local people to start the activities on their own.

ii. Compensation given or to be given to the employees concerning their sustenance and their family member

Rehabilitation package to be given to the project affected people with a view to improve living standard for the people of the affected area, a meticulous plan will be chalked out as under, in presence of district administration and the local people.

The details of compensation and benefits to be given to the PAFs are mentioned below.

- Project affected families will be 1679 of fourteen villages which need rehabilitation.
- Land oustees will also be given rehabilitation and resettlement benefits according to the Govt. of Chhattisgarh Policies and prevailing practice in industries in the vicinity.
- We will pay annual instalment to the PAP for the area of actual excavation operation in line with the R&R Policy of the State Govt.
- To provide hand pumps of sufficient depth to cover up the depression of water table during the summer season. Also water tankers will be provided to supply water to the villages. Overhead tank will be constructed to supply pure drinking water.
- The Company will help in improving water supply and irrigation facilities
- Encourage and motivate the Gram Sabha to form co-operative groups and all assistance will be provided by us.
- We will negotiate with villagers for a proper place for local market and we are prepared to provide all financial and technical assistance.
- Job will be provided to the PAFs after successful completion of training and availability of vacancy irrespective of area of land.
- We will adopt some primary schools of the area
- Medical facilities will be available to the villagers in the dispensary of the Company. Mobile dispensary will also be provided for the villages. Serious cases will be referred to a hospital of metropolitan city for better treatment.

iii. Satellite occupations connected to the mining industry – Number of persons engaged therein – continuance of such business after mine closure

Satellite occupations connected to mining industry will flourish in the area and skill development programme of the company will equip the people of the area to participate in economic activity on a sustainable basis. Local infrastructure will be developed to service social and economic needs. Social investment projects and employee welfare programs will cater effectively to human needs into the indefinite future.

Some of the satellite occupations connected to the mining industry are.

- ⇒ Off loading of maintenance jobs of HEMM and other equipment
- ⇒ Coal transportation on cooperative basis
- ⇒ Civil construction and maintenance on cooperative basis
- ⇒ Supply of items used in mining
- ⇒ Services like running canteen on cooperative basis
- ⇒ Hiring of bus services for school
- ⇒ Hiring of jeep and taxis.
- ⇒ Set up nursery for supply of sapling, flowering plants, bio-composts to garden and reclamation program for afforestation.
- ⇒ Running services for mess and transit hostel
- ⇒ Agro based production unit like Sericulture, Horticulture and pisciculture in unused mining and plantation area
- ⇒ Photocopying, typing and printing which are otherwise off loaded to outside agency.
- ⇒ Supply of daily wages labourer on cooperative basis
- ⇒ Electrical maintenance of the company
- ⇒ Skill development programme
- ⇒ Tyre repairing workshop
- ⇒ Tea staff and hotels
- ⇒ Private transportation
- ⇒ Retail grocery shop
- ⇒ Gardening and house keeping

iv. Continued engagement of employees in the rehabilitated status of mining lease area and any other remnant activities

While providing education to local youths and in the process of planning different agro based livelihood activities, it has been observed, in general, that the local population initiates different activities in the area like hotels, transportation, repairing shop and other allied activities. It is envisaged that these activities will flourish in days to come. Commitment to local economic development and capacity building will be provided by requiring that contractors also target their training and employment opportunities to the local community, and by giving preference to a local supply chain.

v. Envisaged expectation of the society on closure of mine

Agriculture and coal mining are the basic sectors of employment of the people of the leasehold and adjoining area. People are engaged in coal mines and coal based industries. There are many coal based and other industries in nearby areas which provide many employment opportunities to these people.

Closure of this coal block will be something new for the society. But, they are quite aware of the fact that closure of a mine is inevitable and logical culmination of the mining activity.

On its part, the Company will strive to minimize the social impact of the closure by offering attractive rehabilitation package, training for upgrading skills, incentive and assistance for self employment and by generally involving the local people in the post closure utilization of assets of the mine.

It undertakes to give full effort for the following important issues inter-alia many other.

- Re-deployment of work force
- Management of community facilities
- Canalization of available water
- Reclamation of the worked out area for agro forestry and agriculture
- Returning of the reclaimed land to the raiyats through the District / State authorities

Re deployment of work force

The peak work force required for mine operations is in the first few years of the mine when construction activities as well as operational activities achieve their peak.

This work force slowly goes down with completion of development and when only the operational work remains. Again near the end of the mine life say 4-5 years before closure the activity of the mine starts getting reduced and therefore management gets opportunity to taper the operational manpower. After closure skeleton service people are proposed to be left for continuing with the actual closure operation. The reduction of manpower could be done as per the following options.

- Natural requirement
- Implementation of VRS schemes for age group of +50
- Retraining and redeployment of younger groups -40
- Transfer of experienced middle aged groups between 40-50 year to other projects

Management of community facilities

Community facilities are proposed to be developed for betterment of the neighbouring community. The mine management will provide and assist in developing educational facilities, health facilities, community halls and also some communication facilities. After the mine closure, these facilities are to be continued for the neighbouring communities to the possible extent. The closure plan will envisage interaction with the state of local bodies who will take over these facilities and run the same for the community. The local / state bodies may propose/ may make a one time payment towards running these facilities.

Canalization of available water

If it is found that the mine is having sufficient water and on closure, the mine water flows into the surface watercourses, canalizing the water for surrounding community for their irrigational / domestic uses may be taken up.

Manpower as available at the closure stage will be absorbed at alternative locations of the company if available. Those required to be relieved, will be compensated in line with the applicable laws at that time. Gain from development activities in the region will be additional opportunity for local people.

The disturbed land would be made fertile by use of top soil and fertilisers under expert's guidance and use of available water in the void firstly for the land which remained undisturbed and also for the land which will partly be recovered after dismantling infrastructures and implemented.

These all areas along with the surface level backfilled area will be possible to utilise for agriculture. The areas which can be used for agriculture are given in Table 15.19.

TABLE 15.19
AREAS WHICH COULD BE USED FOR AGRICULTURE, FOREST AND
OTHER USES IN POST MINE CLOSURE STAGE

Sl. No.	Particulars	Area (ha.)	Agriculture, ha	Forest	Others

* During pre-mining 75.945 Ha of Protected Forest land and 135.374 Ha of Revenue Forest land = Total 211.319 ha

A perusal of above table shows that the total land useable as agriculture 2316.25 ha, forest 211.319 ha while the rest will be under other land uses as explained under the last column above.

15.6 TIME SCHEDULING FOR ABANDONMENT

The abandonment activities of the OC mine will start 5 years prior to the abandoning of the mine i.e. from 24th year. Study Report of the existing status of the project and tasks required for final abandonment will be identified along with their possible time frame for implementation will be undertaken. Items among others could be as under:

- i) Some machinery having, remaining life will be utilised in the other coal mines of the company if operative at that time. The other machineries will be e-auctioned after decommissioning.
- ii) Dismantling schedule of permanent and temporary structures excepting few which may have utility in the revised scheme for managing abandoned area.

- iii) Winding up all H. T & L.T electrical lines, delivery pipe lines for sprinklers and other varied uses other than those which may be required for development of the abandoned area.
- iv) All the excavated area will be backfilled and there will not be any lagoon.
- v) Scheme for undisturbed and recovered land development programme for making the land more fertile by use of fertilisers and other measures under expert's guidance to sustain affected population after abandonment of the mine.
- vi) Related matter of land development is also developing irrigation system by following drip irrigation system.
- vii) Any other matter related for gainful development.

The minute details will be worked out in the 24th year. The execution of abandonment activities of the OC mines will be started about four years before the mines get abandoned i.e. 25th year. One year time is assigned for study of items as indicated above in i to vii and for preparation of detailed schemes and reports for implementation. Many of the required activities will be carried out during last four years of the mine operation. Some abandonment activities will have to be continued for about two to three years more after the mine operations get fully closed by retaining only few temporary essential office / residential structures.

The facilities infrastructure to be retained and dismantled are given in Table 15.20.

TABLE 15.20

	Total-I and II	35.30	15.64
	Grand total	50.94	

It is proposed that the residential quarters can be given on rent to the people which may be engaged at that time by the future mines in the surrounding area which will sustain the maintenance of the facilities proposed to be retained at site. However, it is proposed that a corpus fund of Rs 20 lakh will be provided which will easily earn an annual interest of Rs 2 lakh to maintain the retained facilities.

The year wise abandonment activities details have been furnished in the Bar Chart given as Annexure 15-3. Year wise Maydays requirement for carrying out progressive and final mine closure activities have also been given in that Annexure.

15.7 ABANDONMENT COST

a) Activities and Cost

Detailed Final Mine Closure Plan will be prepared 5 years prior to the anticipated actual closure of the opencast/underground mine (Refer Plate XXVI and XXXVI). Indicative cost of implementation is given below in Table 15.21, while the schedule of implementation in bar chart form is given with duration of each activity in **Annexure 15-3**.

RQP NO. 34012/03/2014-CPAM

Indicative costs for Mine closure activities are based upon data collected from various sources including discussion with actual mine operators, internet, quotations from vendors.

A perusal of above Table shows that the expenditure on implementation of the mine closure activities will be **1484.54** crore.

Adoption of safety measures and monitoring of safety aspects for a maximum period of 3 years could be considered pertinent.

It may be noted that the 1st major activity is to rehandle 241.44 Mcum(B) OB from the crown dump of 100m height from west to west pit during the 4 years (26th to 29th).

The 2nd major activity is to rehandle 132.55 Mcum(B) or 152.43 mcum(L) of OB from the crown dump of 100m height from west to east pit during the 3 closure years (30th to 32nd) for which the HEMM comprising existing shovel and dumpers will be utilised for dealing with the said volume.

As the underground operation would be continued long after cessation of opencast operation, certain closure activities especially dismantling of facilities as envisaged for opencast may need to be deferred till the end of underground operation. The status will be reviewed and submitted while submitting the final closure plan for the opencast.

b.) Escrow account amount/ Annual Closure cost

Annual Closure cost computed considering the total project areas at the estimated rates mentioned in the Guidelines and deviding the same by the entire life of the mine in the years. An amount equal to the annual cost is to be deposited each year through out the mine life compounded @5% annually.

As estimated in the Guidelines that typically closure cost for an opencast mine will come around six lakhs per hectare of the total project area and it would be rupees one lakh per hectare for underground project area at price level of August 2009 and these rates has been modified based on the whole Sale Price Index as notified by Government from time to time.

The leasehold area of the block is 2583.48 hectares. The opencast mining will be undertaken over 2583.48 Ha whereas underground mining will be undertaken only over 2208.18 Ha. area. A part of the area on western side is not workable by UG and the same has not been considered for UG mine.

Since the total project area of 2583.48 Ha has been taken into consideration for mine closure cost calculation of OC, the cost calculation for Escrow fund

for UG i.e for 2208.18 Ha has been done from 30th year i.e after closure of the OC mine.

Base date of the WPI has been considered as January 2016.for calculation of Escrow Amount.

The amount of mine closure cost with WPI at 175.4 (January 2016) works out Rs. 8.12037 Lakh/ha for opencast mining and Rs. 1.3534 Lakh/ha for belowground mining as per guidelines issued by MOC. The calculations for the needed funds are detailed in Table 15.22 and the yearly amount to be deposited in Table 15.23.

15.8 FINANCIAL ASSURANCE

- i) For financial Assurance the mining company shall open an Escrow account, with any Scheduled Bank, with the Coal Controller Organisation (on behalf of the Central Govt.) as exclusive beneficiary. The mining company shall cause payments to be deposited in such Escrow account at the rate computed as indicated in table given above. The owner of the company may select the Scheduled Bank where the Escrow account is to be opened and inform the same to Coal Controller, Kolkata. The Escrow amount has to be opened as per the Guidelines of the Mine Closure Plan. The amount being deposited will be reviewed with such periodicity as deemed fit by Coal Controller.
- ii) Up to 80% of the total deposited amount including interest accrued in the Escrow Account may be released after every 5 years in line with the periodic examination of the Closure Plan. Amount released shall be equal to the expenditure incurred on the progressive mine closure in the past 5 years or 80% which ever is less. The balance amount at the end of final mine closure shall be released to mine owner on compliance of all statutory Rules, Regulations, Orders made by Central or State Govt., Statutory Organisations, Courts, etc. and duly certified by the Coal controller.
- iii. An agreement, outlining the detailed terms and conditions of operating the Escrow account, shall be executed between the Mining company, Coal Controller and the concerned bank in order to give effect to this. The agreement will be executed before the grant of the permission by the Coal Controller to open the mine.

15.9 RESPONSIBILITY OF THE MINE OWNER

It is the responsibility of the mine owner to ensure that the protective measures contained in the Mine Closure Plan including reclamation and rehabilitation works have been carried out in accordance with the approved mine Closure Plan and Final Mine Closure Plan.

The owner shall submit yearly report to the Coal Controller before 1st July of every year setting forth the extent of protective and rehabilitative works carried out as envisaged in the approved Mine Closure Plan (Progressive and Post mine Closure Plan).

10/1/2014
B.D. SHARMA
Ministry of Coal
Government of India
New Delhi

The prime responsibility of mine closure shall always lie with the mine owner, and incase the funds deposited are found to be insufficient to cover the cost of final mine closure, the mine owner undertakes to provide additional fund equivalent to gap in funding before five years of mine closure.

15.10 PROVISION FOR MINE CLOSURE

The mine owner will obtain a mine closure certificate from Coal Controller to the effect that the protective, reclamation and rehabilitation works in accordance with the approved mine closure plan/ Final mine Closure Plan have been carried out by the mine owner for surrendering the reclaimed land.

After the closure of mine, the reclaimed leasehold area and any structure thereon, which is not to be utilized by the mine owner, shall be surrendered to the State Govt. concerned following a laid down procedure as in vogue at that point of time.

15.11 IMPLEMENTATION PROTOCOL

Progressive mine closure activities will be taken care of by a team as shown in Fig 15.2.

FIG 15.2: ORGANISATION FOR POST MINE CLOSURE ACTIVITIES

15.12 CSR ACTIVITIES

Under CSR, developmental programmes will be implemented as per the needs of the community since development of the Mine to completion of the project. A detailed study will be conducted to identify the actual needs of the people in the area to formulate CSR Policy. The SCR policy of the Company is attached as **Annexure 15-4**.

- The CSR activities will be implemented over and above R&R package.
- Company CSR will be based in general on the following :
- Education Development Activities
- Sport Art and Culture promotion activities
- Health & Sanitation (aarogya) programme
- Financial Assistance for self sustenance and other need based activities.
- Infrastructure development

However the following CSR activities have already been conducted in the project area:

- i. 20 self help groups have been formed in villages and training has been imparted in Vermi Compost activity and Poultry farming.
- ii. 2 Cricket tournaments have been conducted.
- iii. Training on mushroom farming has been imparted to villagers.

In future more CSR activities will be charted out for creation of employment/vocational opportunities for local people with education, skill development & training programme.

Subject: Mining Plan for Gare-Palma Sector II coal mine allotted to MAHAGENCO

Respected Sir,

The Ministry of Coal , GOI has allotted Gare Palma Sector II coal mine to MAHAGENCO vide Allotment Order No. 103/30/2015/NA dated 31.08.2015 for its following end use plants:-

- i) 3X660 MW KORADI,
- ii) 2X500 MW CHANDRAPUR and,
- iii) 1X250 MW PARLI .

2. While the requirement of coal for above mentioned EUPs is 13.82 MMTPA, the Peak Rated Capacity of above coal mine can go upto 23.6 MMTPA. MAHAGENCO proposes to extract coal upto its full capacity i.e. 23.6 MMTPA and utilize extra coal from this mine for other thermal power plants of MAHAGENCO. MAHAGENCO undertakes to surrender an equal amount of linkage coal from CIL to the extent the demand of other EUPs will be met from Gare-Palma Sector II coal mine.

3. Nominated Authority, Ministry of Coal may allow MAHAGENCO to extract max. capacity from this mine so that a mine plan can accordingly be prepared and submitted to MoC for approval. The details of End Use Plants other than the mentioned above where the coal from Gare Palma Sector II coal mine will be supplied shall be intimated to MoC in due course and the linkage coal of an equal quantity from CIL will be surrendered.

Subject: Mining Plan for Gare-Palma Sector II coal mine allotted to MAHAGENCO.

Sir,

I am directed to refer to your letter No. CMD/Mahagenco/ED (Coal)/Fuel/34C dated 17.02.2016 proposing to extract coal from Gare Palma Sector II coal mine upto its full capacity and utilize extra coal for other thermal power plants of MAHAGENCO and surrender an equal amount of linkage coal from CIL to the extent the demand of other EUPs will be met from the said coal mine.

2. It is mentioned that utilisation of coal for any other plant of the successful allocatee is permitted under Section 20 of the Coal Mines (Special Provisions) Act, 2015 and Rule 20 (1) of the Rules with prior intimation to Central Government/Nominated Authority alongwith details of proposed diversion as prescribed in Allotment Agreement. In that event the Successful Allottee shall also be required to adhere to the stipulations under Agreement with respect to the utilisation of coal from the Coal Mine and the Specified End Use and any Applicable Law.

3. However, the issue of diversion arises after the commencement of production. You may submit Mine Plan to Ministry of Coal for approval and tender intimation towards proposed diversion as per clause 8.4 of Allotment Agreement as and when required.

NOTICE

To

All the Successful Allocattees Gare Palma Sector coal mines.

It has been brought to notice by one of the allocattees of the coal mines in Gare Palma Sector that the maximum & minimum range of boundary co-ordinates mentioned in the Vesting Order do not tally with the boundary co-ordinates notified by Ministry of Coal while resolving boundary dispute in Raigarh Coalfield, vide letter No. 13016/5/2004-CA-I dated 23.03.2012.

2. In order to resolve this dispute, CMPDIL was asked to furnish the boundary co-ordinates of all the coal mines of Gare Plama Sector. CMPDIL has informed that the earlier exercise was undertaken using the reference system based on modified Everest datum. Presently, CMPDI is following the WGS-84 system which is the standard Reference system for the Global Positioning System (GPS) followed globally and is compatible with the International Terrestrial Reference system. The values of Geographical co-ordinates (Latitude and Longitude) differ in this system than the other systems followed earlier. It is to be noted that respective positions of any point does not physically change on ground, only the coordinate value changes due to change in reference in different system. Accordingly, boundary co-ordinates of all Gare-Palma Sector coal mines worked out in **WGS 84 system** have been provided by CMPDIL and the same is annexed herewith (**Annexure-I to X**).

3. The Successful Allocattees of the Gare Palma Sector coal mines are hereby directed to note these changes. Vesting Orders will be modified accordingly.

 RQP NO. 34012/03/2014-CPAM

This Allotment Agreement is made by and between following:

PARTIES:

1. **The President of India**, acting through the Central Government represented by the Nominated Authority appointed under Section 6 of the Coal Mines (Special Provisions) Ordinance, 2014) read with Coal Mines (Special Provisions) Second Ordinance, 2014 (the "Nominated Authority").
2. **Maharashtra State Power Generation Company Limited** incorporated in India under the Companies Act, 1956 with corporate identity number U40100MH2005SGC153648, whose registered office is at "Prakashgad" Plot No G-9 Anant Kanekar Marg, Bandra (East), Mumbai, Maharashtra-400051, India (the "Allottee").

BACKGROUND:

- A. The Supreme Court of India through its judgment dated August 25, 2014 read with its order dated September 24, 2014 (collectively the "Supreme Court Judgment") had cancelled allotment of 204 coal blocks.
- B. Subsequent to the Supreme Court Judgment, the Coal Mines (Special Provisions) Ordinance, 2014 read with Coal Mines (Special Provisions) Second Ordinance, 2014 (collectively the "Ordinance") were promulgated and the Coal Mines (Special Provisions) Rules, 2014 (the "Rules") were framed for auction and allotment of all blocks which were subject to cancellation pursuant to the Supreme Court Judgment.
- C. The Coal Mine (*as defined in Clause 1.1.18*) was included in the list of such 204 coal blocks and accordingly, its allotment to the Prior Allottee (*as defined in Clause 1.1.40*) was cancelled pursuant to the Supreme Court Judgment, with effect from the 'appointed date' (as defined in the Ordinance).
- D. Thereafter, the Central Government issued an order under Rule 8(2) of the Rules, dated December 18, 2014, as amended, to the Nominated Authority for allotment of the Coal Mine pursuant to Section 5 of the Ordinance. In such order, generation of power was the "Specified End Use" with respect to the Coal Mine.
- E. Pursuant to an allotment process conducted in accordance with the Ordinance, the Rules, the Allotment Document, dated February 18, 2015 and receipt of a direction from the Central Government under Rule 11(9) of the Rules, the Allottee has become entitled to enter into an agreement with the Nominated Authority pursuant to Rule 13(5) of the Rules with respect to allocation of the Coal Mine to the Allottee for use in the Specified End Use Plant (*as defined in Clause 1.1.45*).
- F. Accordingly, the Nominated Authority and the Allottee are entering into this Agreement

2. ALLOCATION OF THE COAL MINE

- 2.1. The Allottee hereby represents and warrants to the Nominated Authority that it has complied with all the terms and conditions of the Ordinance, the Rules, the Allotment Document and other Applicable Laws, as were required to be complied with by the Allottee, with respect to allotment process for the Coal Mine and the Allottee is eligible in all respects to receive allocation of the Coal Mine. The Allottee also represents and warrants to the Nominated Authority that it is in compliance with all the Eligibility Conditions and would continue to be in compliance with all the Eligibility Conditions during the Term.
- 2.2. Relying on the representations and warranties of the Allottee and the information, documents and other undertaking provided by the Allottee, including the Warranties provided under Clause 17, the Nominated Authority is pleased to enter into this Agreement with the Allottee for allocation of the Coal Mine to the Allottee subject to terms and conditions specified in this Agreement.

3. CONDITIONS FOR ALLOTMENT**3.1. Allotment Conditions**

The issuance of the Allotment Order in favour of the Allottee shall be subject to satisfaction of the following conditions (collectively the "Allotment Conditions"):

- (a) the Allottee continuing to be in compliance with all the Eligibility Conditions;
- (b) the Allottee having paid the first instalment of the Upfront Amount, in accordance with Clause 5.2.1;
- (c) the Allottee having furnished the Performance Security;
- (d) the Allottee having deposited an amount equal to INR 0 (Indian Rupees Zero), being the Fixed Amount, in the Designated Bank Account;
- (e) only in the event that the Allottee is a Prior Allottee for the Coal Mine or any other Schedule I coal mine (as defined in the Ordinance), the Allottee having paid the Additional Levy within the due date for payment of such Additional Levy as specified in Rule 18 of the Rules; and
- (f) The Allottee having provided a written intimation to the Nominated Authority in substantially the same form as provided in SCHEDULE C regarding: (i) the movable property which the Allottee has not negotiated to own or utilise and which it intends to move and store under Section 10(4) of the Ordinance; (ii) the contracts which the Allottee is desirous of adopting under Section 11(1) of the Ordinance, including contracts with secured creditors; and matters incidental

thereto.

3.2. Completion of Allotment Conditions and Notice

- 3.2.1. Upon satisfaction of each of the Allotment Conditions specified in Clause 3.1, the Allottee shall provide a written notice to the Nominated Authority in substantially the same format as provided in SCHEDULE D (the "Completion Notice")
- 3.2.2. In the event the Allottee does not provide a Completion Notice with respect to each of the Allotment Conditions listed in Clauses 3.1(a); 3.1(b); 3.1(c); 3.1(d); 3.1(e) (in cases where the Allottee is a Prior Allottee for the Coal Mine or any other Schedule I coal mine (as defined in the Ordinance)) and Clause 3.1(f), within 30 Days of the Agreement Date, then the Nominated Authority may terminate this Agreement without incurring any liability whatsoever by providing a written notice to the Allottee. It is clarified that in such event the Allottee shall not be entitled to receive the Allotment Order and the Nominated Authority shall be entitled to dispose the Coal Mine in the manner provided in the Ordinance and the Rules, including through re-auction/re-allotment or through appointment of a designated custodian.
- 3.2.3. If the Allottee does not provide a Completion Notice with respect to 3.1(f) and fails to provide a written intimation in substantially the same form as provided in SCHEDULE C within 30 Days of the Agreement Date, then it shall be deemed that the Allottee is not desirous of owning or utilising any movable property or continuing any contract. In such cases, without prejudice to Clause 3.2.2, the Nominated Authority may elect to issue the Allotment Order without including aforementioned particulars in the Allotment Order; if all other Allotment Conditions have been satisfied by the Allottee and corresponding Completion Notice have been provided to the Nominated Authority.

4. THE ALLOTMENT ORDER

- 4.1. Upon receipt of the Completion Notice evidencing compliance with each of the applicable Allotment Conditions, the Nominated Authority may issue the Allotment Order, subject to the Ordinance, the Rules, the Allotment Document and other Applicable Laws, in the manner provided in this Clause 4.
- 4.2. The Allotment Order shall be issued by the Nominated Authority in substantially the same format as specified by the Central Government.
- 4.3. Prior to issuance of the Allotment Order, the Nominated Authority shall provide a written notice to the Allottee specifying the date of the Allotment Order (the "Allotment Date") and the date and time on which and place from where the Allotment Order may be collected by the Allottee.

- 4.4. The Allottee shall depute an authorised representative of the Allottee ("**Authorised Representative**") to receive the Allotment Order on behalf of the Allottee on the date, time and place specified by the Nominated Authority under Clause 4.3.
- 4.5. The Authorised Representative shall be provided the Allotment Order in duplicate and shall be required to acknowledge the receipt of the Allotment Order. In the event, the Authorised Representative is not present on the date and time specified by the Nominated Authority under Clause 4.3, then the Nominated Authority shall dispatch the Allotment Order by registered post with acknowledgment due, to the registered office of the Allottee.
- 4.6. The Allottee shall, within seven Business Days of the receipt of the Allotment Order through the Authorised Representative or through registered post, as the case may be, sign and return the duplicate copy of the Allotment Order in acknowledgement thereof. In the event the duplicate copy of the Allotment Order duly signed by the Allottee is not received by the aforementioned date, the Nominated Authority may, unless it consents to extension of time for submission thereof, appropriate the Performance Security and other payments made by such Allottee as damages and also terminate this Agreement and cancel and withdraw the Allotment Order.

5. POST ALLOTMENT OBLIGATIONS

5.1. Commencement Plan

- 5.1.1. Within 30 Business Days of the date of the Allotment Order, the Allottee shall be required to submit a detailed plan (the "**Commencement Plan**") towards commencement of mining operations at the Coal Mine. The Commencement Plan shall include all actions that the Allottee may be required to perform to commence mining operations at the Coal Mine and shall include such information as may be required by the Nominated Authority, including without limitation, information regarding the following:

- (a) the Governmental Approvals, including the Mining Lease which shall be required for commencement of mining operations at the Coal Mine and the time within which the Allottee would make applications for such Governmental Approvals; and
- (b) revisions to the Mine Plan if any, as may be proposed by the Allottee.

- 5.1.2. The Commencement Plan shall be prepared by the Allottee to ensure strict compliance with the Efficiency Parameters.

8.4. Utilisation in any other plant of the Allottee

- 8.4.1. In the event that the Allottee is desirous of utilising the coal extracted from the Coal Mine in any other plants of the Allottee or its subsidiary company (in terms of the Companies Act, 2013) engaged in the same specified end use as the Specified End Use Plant ("Other Plant(s)") pursuant to Section 20(2) of the Ordinance, then the Allottee shall provide a written intimation ("Diversion Notice") to the Central Government.
- 8.4.2. In accordance with Rule 20(2) of the Rules, the Diversion Notice shall be provided at least thirty Business Days prior to the intended date of such utilisation.
- 8.4.3. In the event that, upon submission of the Diversion Notice the Central Government seeks further information regarding the aforementioned utilisation, then the Allottee shall provide the same within seven Business Days. The Allottee shall not utilise the coal extracted from the Coal Mine in any Other Plant(s) if: (i) the Central Government determines in its sole discretion that such utilisation is not in accordance with Section 20(2) of the Ordinance or Rule 20(2) of the Rules; or (ii) information regarding compliance with Section 20(2) of the Ordinance or Rule 20(2) of the Rules with respect to such utilisation is not provided to the Central Government in the manner stipulated under this Clause 8.4.
- 8.4.4. The Diversion Notice shall include complete particulars of the proposed utilisation of coal extracted from the Coal Mine in any Other Plant, including without limitation:
- (i) name and address of the Other Plant(s);
 - (ii) the ownership of the Other Plant(s). It is clarified that such Other Plant(s) should be owned solely by the Allottee or its subsidiary company (in terms of the Companies Act, 2013) to be eligible to get coal in terms of Section 20(2);
 - (iii) the mechanism for transportation of coal from the Coal Mine to the Other Plant(s);
 - (iv) the requirement of coal of the Other Plant(s); the sources from which such requirement is being met; and the per cent of such requirement being proposed to be met from the Coal Mine; and the manner in which such diversion would affect the Specified End Use Plant originally associated with the Coal Mine.
- 8.4.5. In the event that coal extracted from the Coal Mine is being diverted to any Other Plant(s) pursuant to this Clause 8.4, then the Allottee or any of its subsidiary company owning such Other Plant(s) shall also be required to adhere to the stipulations under this Agreement with respect to the utilisation of coal from the Coal Mine and the Specified End Use and any Applicable Law.

8.5.1. Any coal extracted from the Coal Mine which is in excess of the requirements of coal for the Specified End Use Plant and the Other Plant(s) shall be required to be supplied to CIL at the CIL Notified Price.

8.5.2. It is clarified that for the purposes of sale of coal to CIL, the determination of grade of coal shall be based on joint analysis of coal carried out by the Allottee and CIL. It is further clarified that, the Allottee shall continue to make Monthly Payments with respect to the coal extracted from the Coal Mine as per Clause 9 including on the coal sold to CIL.

8.5.3. All Taxes applicable on such sale of coal shall be payable additionally.

9. MONTHLY PAYMENTS AND ESCALATION**9.1. Monthly Payment**

9.1.1. The Allottee shall be required to make monthly payments (the "Monthly Payment") with respect to the coal extracted from the Coal Mine on the basis of the Reserve Price (as escalated in accordance with Clause 9.2).

9.1.2. The Monthly Payment is required to be made in the Designated Bank Account within 20 calendar days of expiry of each month with respect to coal extracted from the Coal Mine in such calendar month.

9.1.3. All payments required to be made by the Allottee shall be made net of all applicable Taxes. In the event, Taxes are payable, the Allottee shall gross-up the amount payable and make payment of the aggregate amount.

9.2. Escalation

9.2.1. For the purposes of computation of the Monthly Payment, the Reserve Price shall be subject to an escalation on a year-on-year basis every financial year on the basis of the pre-specified escalation formula that is prescribed in the relevant Standard Bidding Document for Design, Build, Finance, Own and Operate (DBFOO) bidding as formulated by Ministry of Power for escalation of fuel cost from captive mines (the "Reference Index"), and the Reserve Price shall stand increased by the per cent increase of the Reference Index on a year-on-year basis. It is clarified that for the purposes of escalation in a subsequent financial year, the escalated Reserve Price of the immediately preceding year shall be considered. The last published Reference Index shall be used for computing the escalation. The subject escalation would be applicable after the issuance of the Allotment Order.

9.2.2. In the event that the failure of the Allottee to make payment of the Monthly Payment

- 9.3. It is clarified that in addition to the aforementioned payments any royalty payable under Applicable Laws shall be payable additionally.

10. EFFICIENCY PARAMETERS

- 10.1. The conduct of mining operations at the Coal Mine shall be subject to the milestones listed in SCHEDULE E (the "Efficiency Parameters").
- 10.2. The Allottee would provide periodic information to the Nominated Authority and the Central Government regarding compliance with the Efficiency Parameters in the manner stipulated in Clause 7 (INFORMATION).
- 10.3. Any non compliance with the Efficiency Parameters would result in appropriation of the Performance Security in the manner stipulated in Clause 6 (PERFORMANCE SECURITY) and in case where such non-compliance exceeds for more than five instances, such non-compliance may also result in termination of this Agreement as provided in Clause 24 (EFFECTIVE DATE, TERM AND TERMINATION).

11. GENERAL RIGHTS AND OBLIGATIONS

11.1. Limited Mining Rights

The Allottee shall be entitled to receive a Mining Lease for conduct of mining operations only in the Coal Mine and shall not be entitled to conduct the mining operations in any other area pursuant to this Agreement. The rights granted to the Allottee herein to conduct mining operations are exclusive within the Coal Mine. The Government undertakes not to grant any rights to mine coal in the Coal Mine to any Third Party during the Term.

11.2. Authorisations

The Allottee shall obtain and maintain all Governmental Approvals required for conducting the mining operations at the Coal Mine and performing its obligations under this Agreement. The Government undertakes, on a no-obligation basis, to expeditiously provide all necessary approvals and assistance for conducting mining operations and as otherwise may be reasonably required by the Allottee in relation to the rights granted to it under this Agreement.

11.3. Geological and Archaeological Finds

It is expressly agreed that other than rights to mine for coal (as may be granted under any

Mining Lease pursuant hereto), geological or archaeological rights do not form part of the rights granted to the Allottee under this Agreement and the Allottee hereby acknowledges that except in relation to coal (as may be granted under any Mining Lease pursuant hereto), it shall not have any mining rights or interest in the underlying minerals, metals (including gold, silver etc.), gas, oil, fossils, antiquities, structures or other remnants or things either of particular geological or archeological interest and that such rights, interest and property on or under the Coal Mine shall vest in and belong to the relevant Central/ State Government or the concerned Governmental Authority. The Allottee shall take all reasonable precautions to prevent its workmen or any other person from removing or damaging such interest or property and shall inform the relevant Central/ State Government forthwith of the discovery thereof and comply with such instructions as the concerned Governmental Authority may reasonably give for the removal of such property.

11.4. Health, Safety, Welfare, Social Security and Minimum Wages

- 11.4.1. The Allottee shall comply with all Applicable Laws and observe Good Industry Practice for the protection of the general health, safety, welfare, social security and minimum wages of employees engaged at the Coal Mine, including employees of any contractor or sub-contractor and of all other persons having legal access to the area covered by this Agreement.
- 11.4.2. Without prejudice to the generality of the foregoing, the Allottee shall ensure payment of minimum wages to the employees engaged at the Coal Mine and in related activity including employees of any contractor or sub-contractor.
- 11.4.3. The Allottee shall install and utilize such recognized modern safety devices and observe such recognized modern safety precautions as are provided and observed under Good Industry Practice. The Allottee shall maintain in a safe and sound condition for the duration of this Agreement all infrastructure and equipment constructed or acquired in connection with mining operations and required for ongoing operations.
- 11.4.4. The Allottee shall train employees engaged at the Coal Mine, including employees of any contractor or sub-contractor and of all other persons having legal access to the area covered by this Agreement, in accordance with the Good Industry Practice.
- 11.4.5. The Allottee shall construct, maintain, and operate health programs and facilities to serve the employees engaged at the Coal Mine, including employees of any contractor or sub-contractor and of all other persons having legal access to the area covered by this Agreement, which programs and facilities shall install, maintain and use modern health devices and equipment and shall practice modern health procedures and precautions in accordance with Good Industry Practice.

11.4.6. Without prejudice to the generality of the foregoing, in the event the Allottee provides housing, the same shall be built to a standard that provides suitable living environments adequate for health and well-being, and which meet applicable sanitation standards in terms of Good Industry Practice.

12. CONTRACTORS AND SUB-CONTRACTORS

- 12.1. In the event the Allottee enters into any agreement with any contractor in relation to the mining operations at the Coal Mine, then a duly certified copy of such agreement shall also be submitted to the Nominated Authority within fifteen Business Days of its execution.
- 12.2. Any Agreement between the Allottee and its contractors shall contain appropriate terms by which the contractor shall acknowledge and comply with the terms of this Agreement, and the contractor shall also cause its sub-contractors to acknowledge and comply with the same.
- 12.3. Nothing in this Agreement shall exempt the Allottee from any and all obligations under this Agreement despite the delegation of such obligations to a contractor or its subcontractors.
- 12.4. Terms and Conditions for appointment of contractor(s) in relation to coal mining operations may be formulated in line with the terms and conditions specified in the Auction by Competitive Bidding of Coal Mines Rules, 2012 (as amended by notification dated 27.12.2012) framed under Sec. 11A of the MMDR Act. The terms and conditions may be as follows:
- 12.4.1. In case the Coal Mine is developed through contractor(s), the selection of the contractor(s) in relation to coal mining operation shall be through a competitive bidding process and the Allottee company shall inform the State Government concerned, the Central Government and the Nominated Authority about the engagement of such contractor(s) and the terms and conditions of such engagement, as soon as it is finalised.
- 12.4.2. The Allottee shall ensure that the criteria of bidding for engagement of the contractor(s) are not linked to CIL Notified Price.
- 12.4.3. The contractor(s) shall maintain all records as required to be maintained and shall provide such records for the inspection by the Allottee, the State Government concerned, the Central Government and the Nominated Authority.

13. CHANGE IN CONTROL AND TRANSFER**13.1. Change in Control of the Allottee**

13.1.1. Change in Control of the Allottee or any transfer of the Specified End Use Plant along with the rights in relation to the Coal Mine, shall be permissible with prior intimation to the Nominated Authority and the Central Government if:

- (a) such change in Control does not result in the Allottee becoming non compliant with any of the Eligibility Conditions or the transferee is also compliant with the applicable Eligibility Conditions, as the case may be. It is clarified that no company other than a Government company or corporation shall be permitted to hold more than twenty-six per cent of the paid up share capital in the Allottee, either directly or through any of its subsidiary company or associate company; and
- (b) such change in Control or transfer does not require any prior consent, approval, no-objection certificate or the like under any Applicable Law.

13.1.2. In the event that any change in Control of the Allottee or any proposed transfer of the Specified End Use Plant along with the rights in relation to the Coal Mine requires prior Governmental Approval under any Applicable Laws, then such Governmental Approval shall be granted (in addition to any other requirement under Applicable Law) only if:

- (a) the transferee of such right, title or interest or the Allottee subsequent to change of Control, as the case may be, also meets all the applicable Eligibility Conditions; or
- (b) the Allottee continues to meet all the applicable Eligibility Conditions, as the case may be

13.2. Change in Control in case of a joint venture

13.2.1. In the cases where allotment has been made to a joint venture of any two or more Government companies or corporations, such companies shall be prohibited from alienating or transferring any interest, except for taking of loans or advances from a bank or financial institution, in the joint venture of whatsoever nature including ownership in favour of a Third Party.

13.3. Consequences of default

13.3.1. In the event of any change in Control or any transfer of right, title or interest in the Coal Mine which is not in conformity with this Agreement or any Applicable Law, then in addition to any rights, remedy or consequences as may be applicable under Applicable Laws, the Nominated Authority or the Central Government may, in its sole discretion,

appropriate the Performance Security, disqualify the Allottee from participating in any further auction or allotment process conducted by the Nominated Authority; terminate this Agreement; and/or terminate and withdraw the Allotment Order as the case may be.

13.3.2. Any transfer of right, title or interest which is not in conformity with this Agreement or Applicable Laws shall be deemed to be void *ab-initio*.

14. MINE PLAN

14.1. The Mine Plan approved in relation to the Prior Allottee, if any shall also be applicable to the Allottee.

14.2. Upon allocation of Coal Mine, the Allottee may revise the Mine Plan for extraction of more coal as compared to the Mine Plan being subject to revision in accordance with the provisions of Applicable Law and the Agreement.

14.3. The Allottee may increase mine production to the maximum possible extent and utilise the coal in accordance with Clause 8. Subject to Applicable Laws, the Allottee may apply for coal linkages or participate in auction/ allotment for the Specified End Use Plant three years prior to the exhaustion of extractable reserves in the Coal Mine.

15. MINE CLOSURE

15.1. Upon exhaustion of the extractable coal reserves at the Coal Mine the Coal Mine shall be closed, in the manner provided in the mine closure plan and Applicable Laws.

16. COMPLIANCE AND RECORD KEEPING

16.1. The Allottee shall keep at its normal place of business detailed, accurate and up to date records and books of account showing all payments made by the Allottee in connection with this Agreement, the development of the Coal Mine, mining operations and matters incidental thereto and the steps taken by the Allottee to comply with Applicable Laws. Such records and books of accounts shall be required to be maintained for a period of six years. The Allottee shall ensure that such records and books of accounts are sufficient to enable verification of the Allottee's compliance with its obligations under this Agreement.

16.2. The Allottee shall permit the Nominated Authority and its representatives, to access and take copies of the Allottee's records and any other information held at the Allottee's premises and to meet with the Allottee's personnel to audit the Allottee's compliance with its obligations under this Agreement. Such audit rights shall continue for three years after termination of this Agreement. The Allottee shall give all necessary assistance to the conduct of such audits during the Term of this Agreement and for a period of three year after termination of this Agreement.

- 17.1. The Allottee represents and warrants to the Nominated Authority (save as otherwise disclosed to the Nominated Authority in writing), as of the Agreement Date, in the manner as detailed in SCHEDULE G ("Warranties").
- 17.2. None of the representations, warranties and/ or statements contained in this Agreement shall be treated as qualified by any actual or constructive knowledge on the part of the Nominated Authority or the Central Government or any of its respective agents, representatives, officers, employees or advisers.
- 17.3. In the event that any of the representations or warranties made or given by the Allottee ceases to be true or stands changed, the Allottee shall promptly notify the Nominated Authority of the same. The Allottee hereby waive all its rights to invoke and shall not invoke the Nominated Authority's knowledge (actual, constructive or imputed) of a fact or circumstance that might make a statement untrue, inaccurate, incomplete or misleading as a defence to a claim for breach of Warranties or covenant or obligation of the Allottee.

18.1. In this clause, a reference to the Nominated Authority shall include the Nominated Authority; the Government of India; any of the departments or ministries of Government of India; and of the officers, employees, staff, advisors, representatives or agents of the Government of India (collectively the "Indemnified Party") and the provisions of this Clause shall be for the benefit of the Indemnified Party, and shall be enforceable by each such Indemnified Party.

- (a) any breach of the Warranties
- (b) Allottee's breach or negligent performance or non-performance of this Agreement;
- (c) the enforcement of this Agreement;
- (d) any claim made against the Indemnified Party for actual or alleged infringement of a Third Party's rights arising out of or in connection with mining operations at the Coal Mine or performance or non performance of any of the obligations under this Agreement to the extent that such claim arises out of the breach, negligent performance or failure or delay in performance of this Agreement by the Allottee,

its employees, agents or contractors;

- (e) any claim made against the Indemnified Party by a Third Party for death, personal injury or damage to property arising out of or in connection with mining operations at the Coal Mine or performance or non performance of any of the obligations under this Agreement;
- (f) any loss or damages caused on account of breach of any Applicable Law by the Allottee, including without limitation any costs incurred by the Nominated Authority in cleaning or rectifying of any environmental damages caused by the Allottee on account of, lack of Good Industry Practice; breach, negligent performance or failure or delay in performance of this Agreement; or non-compliance with Applicable Law.

18.3. If any Third Party makes a claim, or notifies an intention to make a claim, against the Indemnified Party which may reasonably be considered likely to give rise to a liability under this indemnity (a "Claim"), the Indemnified Party shall as soon as reasonably practicable, give written notice of the Claim to the Allottee, specifying the nature of the Claim in reasonable detail.

18.4. Subject to the Allottee providing security to the Indemnified Party, to the Indemnified Party's sole and absolute satisfaction against any claim, liability, costs, expenses, damages or losses which may be incurred, the Allottee may take such action as it may reasonably deem fit to avoid, dispute, compromise or defend the Claim.

18.5. Payments of the amount of Claim shall become due and payable within thirty Business Days of receipt of notice of Claim. If a payment due from the Allottee under this clause is subject to Tax (whether by way of direct assessment or withholding at its source), the Indemnified Party shall be entitled to receive from the Allottee such amounts as shall ensure that the net receipt, after Tax, to the Indemnified Party in respect of the payment is the same as it would have been were the payment not subject to Tax.

19. ASSIGNMENT, SECURITY FOR FINANCING

19.1. Prohibition on Assignment

19.1.1. Except as provided in this Clause 19, the Allottee shall not assign this Agreement, either directly or indirectly, save and except with the prior consent in writing of the Nominated Authority, which consent the Nominated Authority shall be entitled to decline without assigning any reason.

19.1.2. Subject to compliance with provisions of Clause 19.2, this Agreement may be assigned by the Allottee in the following events:

- (a) upon occurrence of a change in Control or transfer which is permissible in terms of Clause 13, to the transferee; or
- (b) upon occurrence of an enforcement event, to a transferee as may be determined by a bank or financial institution in terms of Clause 19.3.

19.2. Assignment Conditions

Assignment of this Agreement shall also be subject to the following conditions precedent:

- (a) the proposed assignee must meet the applicable Eligibility Conditions;
- (b) the proposed assignee must agree to unconditionally and irrevocably adhere to the provisions of this Agreement and must enter into a deed of adherence in the manner as prescribed by the Nominated Authority;
- (c) the proposed assignee must have furnished the Performance Security, to substitute any subsisting Performance Security provided by the Allottee;
- (d) the proposed assignee must have paid any other amount due from the Allottee and agree to indemnify and hold the Nominated Authority harmless in all respects against any claims from any Third Party or the Allottee with respect to such assignment.

19.3. Security for financing, enforcement Event

19.3.1. Subject to Applicable Laws, the Allottee shall be entitled to create security over the Coal Mine through mortgage for the purposes of availing financing from a bank or financial institutions for the purposes of financing of the Specified End Use Plant or mining operations at the Coal Mine and such security creation shall not require prior approval by the Nominated Authority or the Central Government. It is clarified that the Allottee shall be permitted to enter into any agreement with bank or financial institutions with respect to assignment of this Agreement in terms of this Clause 19 and in such case the assignment conditions mentioned in Clause 19.2 shall not be applicable and the conditions specified in Clause 19.3 shall be applicable.

19.3.2. The Allottee shall keep the Nominated Authority promptly informed about: (i) any default in its obligation under any arrangement with any bank or financial institution; (ii) any security interest created over the Coal Mine; and (iii) any action initiated by the bank or financial institution regarding enforcement of security.

19.3.3. In the event of a default, the banks or financial institutions, as the case may be shall be entitled to enforce their security interest, provided that the conditions listed in Clause 19.2 are met, in the manner provided below:

deemed to be assigned in favour of the Selectee without any further act or deed of the Allottee.

20. INSURANCE

- 20.1. At all times during the Term hereof, the Allottee will maintain, and cause its contractors and sub-contractors to maintain, with financially sound and reputable insurers, insurance against such casualties and contingencies, of such types, on such terms and in such amounts (including deductibles, co-insurance and self-insurance, if adequate reserves are maintained with respect thereto) as is consistent with Good Industry Practice.

21. ACCOUNTS AND AUDIT

21.1. Audited Accounts

The Allottee shall maintain books of accounts recording all its receipts, income, expenditure, payment, assets and liabilities in accordance with Good Industry Practice and Applicable Laws.

21.2. Appointment of Auditors

The Nominated Authority shall have the right, but not the obligation, to appoint at its cost, from time to time and at any time, an auditing firm or an auditor to audit and verify all those matters, expenses, costs, realizations and things with respect to the Coal Mine or which the statutory auditors are required to do, undertake or certify pursuant to this Agreement.

21.3. Certification of claims by Statutory Auditors

Any claim or document provided by the Allottee to the Nominated Authority in connection with or relating to receipts, income, payments, costs, expenses, accounts or audit, and any matter incidental thereto shall be valid and effective only if certified by its statutory auditors.

22. GOVERNMENT INSPECTION

- 22.1. The Nominated Authority, through its authorized representatives shall have the right to free ingress and egress within any part of the Coal Mine at any time to inspect works or activities being undertaken or implemented by the Allottee in order to monitor and verify compliance with the terms of this Agreement and all Applicable Laws.

- 22.2. The Nominated Authority, through its authorized representatives, shall have access to the Allottee's financial and other records and transactions (relatable to any period) at any time upon reasonable advance notice, the right to copy therefrom, for the purpose of assessing the performance and compliance of the Allottee with the terms of this

Agreement and all Applicable Laws, rules and regulations or to aid in the enforcement of the same.

- 22.3. The Nominated Authority shall have the right to conduct, either directly or indirectly through any Third Party, a performance audit to verify compliance by the Allottee, of its obligations hereunder.

23. EVENT OF FORCE MAJEURE

- 23.1. Event of Force Majeure means any of the following events or circumstances or combination of the following events or circumstances which are beyond the reasonable control of the Allottee, which could not have been prevented by Good Industry Practice or by the exercise of reasonable skill and care and which or any consequences of which, have a material and adverse effect upon the performance by the Allottee of its obligations or enjoyment of its rights:

- (i) acts of God, flood, drought, earthquake or other natural disaster;
- (ii) epidemic or pandemic;
- (iii) terrorist attack, civil war, civil commotion or riots, war, threat of or preparation for war, armed conflict, imposition of sanctions, embargo, or breaking off of diplomatic relations;
- (iv) nuclear, chemical or biological contamination or sonic boom;
- (v) collapse of buildings, fire, explosion or accident;
- (vi) any labour or trade dispute, strikes, industrial action or lockouts (other than those solely affecting Allottee claiming the same as an Event of Force Majeure and attributable to such Allottee's policies regarding labour, compensation or employment or labour related conditions).

- 23.2. Provided it has complied with Clause 23.3, if the Allottee is prevented, hindered or delayed in or from performing any of its obligations under this Agreement by an Event of Force Majeure, the Allottee shall not be in breach of this Agreement or otherwise liable for any such failure or delay in the performance of such obligations.

- 23.3. Upon occurrence of an Event of Force Majeure, the Allottee shall:

- (i) as soon as reasonably practicable after the start of the Event of Force Majeure but no later than thirty Business Days from its start, notify the Nominated Authority and the Central Government in writing of the Event of Force Majeure, the date on which it started, its likely or potential duration, and the effect of the Event of Force Majeure on its ability to perform any of its obligations under this

Agreement; and

- (ii) use all reasonable endeavours to mitigate the effect of the Event of Force Majeure on the performance of its obligations including following of Good Industry Practice.

23.4. If an obligation is suspended by reason of an Event of Force Majeure for more than one month continuously, the Parties shall enter into good faith negotiations to revise the terms of this Agreement to reflect the changed circumstances, provided that this Agreement shall remain in effect during the period during which the Parties are negotiating the terms of any such revision.

23.5. Notwithstanding Clause 23.4, in the event that performance of obligations under this Agreement remain suspended for a period of: (a) six months continuously; (b) or nine months over a period of one year, then the Nominated Authority may in its sole discretion terminate this Agreement in the manner provided in Clause 24 (EFFECTIVE DATE, TERM AND TERMINATION).

24. EFFECTIVE DATE, TERM AND TERMINATION

24.1. Effective Date

This Agreement shall come into effect on the Agreement Date. It is clarified that the provisions of this Agreement shall also be included in the Mining Lease.

24.2. Term

This Agreement shall commence on the dates mentioned in Clause 24.1 and shall continue for the period of validity of the Mining Lease granted to the Allottee ("Term"), unless agreed otherwise by the Parties and unless this Agreement is terminated earlier in accordance with its terms prior to the expiry of the Term.

24.3. Termination

24.3.1. This Agreement may be terminated upon occurrence of any of the following events (each a "Termination Event"):

- (a) failure of the Allottee to make payment of the Upfront Amount in the manner provided in Clause 5.2;
- (b) failure of the Allottee to complete the Allotment Conditions within the time specified in Clause 3.2;

becoming aware of the same, on its own accord or upon receipt of a notice from the Nominated Authority;

- (o) surrender of the Coal Mine by the Allottee;
- (p) cessation of coal mining operation exceeding a period of one year continuously, or 18 months over a period of two years without occurrence of any Event of Force Majeure;
- (q) termination of the Mining Lease granted to the Allottee; or
- (r) in the opinion of the Central Government, it is expedient in public interest to terminate this Agreement.

24.3.2. Upon occurrence of a Termination Event, the Nominated Authority may elect to terminate this Agreement by providing a 15 Business Days written notice to the Allottee. The determination of the Nominated Authority regarding occurrence of a Termination Event shall be final and binding on the Allottee.

24.3.3. In case the Nominated Authority elects to terminate this Agreement, then the Performance Security and all other payments made by the Allottee shall be forfeited and the Allottee shall not be entitled to any benefits under this Agreement but would continue to be liable towards any antecedent liability, all obligations accrued before the effective date of the surrender/ termination and also for the obligations that must be fulfilled after termination.

24.4. Retention of Books and Records

Upon termination of this Agreement, the Allottee shall retain all documents, books and records related to the Coal Mine for a period of three years or such longer period as may be specified under Applicable Law. It is clarified that the Allottee may also retain such books and records in electronic form if permitted under Applicable Laws.

25. GOVERNING LAW AND DISPUTE RESOLUTION

25.1. This Agreement and all questions of its interpretation shall be construed in accordance with the laws of India, without regard to its principles of conflicts of laws.

25.2. Any dispute, controversy or claim arising out of or relating to or in connection with the Agreement including a dispute as to the validity or existence of this Agreement, or any breach or alleged breach thereof, shall be settled through mutual discussions between the Parties. In this regard, the Allottee shall nominate an officer not below the rank of a director to participate in the discussions on its behalf.

25.3. In the event that the Allottee fails to nominate an officer in the manner required under Clause 25.2; or the Parties are unable to resolve any dispute in accordance with Clause

25.2 within a period of 30 Business Days starting from the date on which the first notice of dispute was provided by either Party, such dispute shall be resolved in accordance with Section 27 of the Ordinance.

25.4. It is expressly agreed between the Parties, that any existence of a dispute shall not affect in any manner any of the rights of the Nominated Authority under this Agreement, including without limitation the right to appropriate Performance Security or terminate this Agreement, until a final determination in this regard is made.

25.5. The provisions contained in this Clause 25 shall survive the termination of this Agreement.

26. MISCELLANEOUS

26.1. Time of Essence

Each of the Parties hereby agrees that, with regard to all dates and time periods set forth or referred to in this Agreement, time is of the essence.

26.2. Publicity

The Allottee shall not issue any information, document or article for publication in any news or communications media or make any public statement in relation to this Agreement without the prior written consent of the Nominated Authority unless required to do so by Applicable Law, provided that prior to any disclosure of any such information required by Applicable Law, the Allottee must first notify the Nominated Authority, who shall then have the opportunity to respond to and/or dispute such intended disclosure.

26.3. Severability

26.3.1. If any term, provision, covenant or restriction of this Agreement or the application thereof to any Person or circumstance shall be held invalid, void or unenforceable by a court of competent jurisdiction or other Governmental Authority to any extent, the remainder of the terms, provisions, covenants and restrictions of this Agreement and the application thereof to Persons or circumstances (other than those as to which any portion of this Agreement is held invalid, void or unenforceable) shall not be affected thereby and shall remain in full force and effect to the fullest extent permitted by law, so long as the economic or legal substance of the transactions contemplated hereby is not affected in any manner materially adverse to any Party.

26.3.2. Upon such a determination, the Parties shall negotiate in good faith to modify this Agreement so as to effect the original intent of the Parties as closely as possible in an acceptable manner in order that the transactions contemplated hereby be consummated as originally contemplated to the fullest extent possible.

26.4. Costs and Expenses

26.4.1. The Allottee shall bear its own costs in connection with the negotiation, preparation and execution of this Agreement.

26.4.2. The stamp duty payable for this Agreement shall be borne by the Allottee.

26.5. Further Assurance

The Allottee shall cooperate with the Nominated Authority and execute and deliver to the Nominated Authority such instruments and documents and take such other actions as may be requested from time to time in order to carry out, evidence and confirm their rights and the intended purpose of this Agreement.

26.6. Legal And Prior Rights

All rights and remedies of the Nominated Authority hereto shall be in addition to all other legal rights and remedies belonging to the Nominated Authority and the same shall be deemed to be cumulative and not alternative to such legal rights and remedies aforesaid and it is hereby expressly agreed and declared by and between the Parties hereto, that the determination of this Agreement for any cause whatsoever shall be without prejudice to any and all rights and claims of the Nominated Authority, which shall or may have accrued prior thereto.

26.7. Waiver

26.7.1. The waiver of any default or breach under this Agreement by the Nominated Authority shall not constitute a waiver of the right to terminate this Agreement for any substantial default of a similar nature or under any other terms and conditions of this Agreement.

26.7.2. No failure or delay by the Nominated Authority in exercising any right or remedy provided by Applicable Law under or pursuant to this Agreement shall impair such right or remedy or operate or be construed as a waiver or variation of it or preclude its exercise at any subsequent time and no single or partial exercise of any such right or remedy shall preclude any other or further exercise of it or the exercise of any other right or remedy. The rights and remedies of the Nominated Authority under or pursuant to this Agreement are cumulative, may be exercised as often as it considers appropriate and are in addition to its rights and remedies under Applicable Law.

26.7.3. Submission of any document, information, report or notice, which contains any information or reference to any default or breach under this Agreement or any Applicable Law, to the Nominated Authority shall not be construed to be a deemed approval of such breach or default and the Nominated Authority may exercise any rights or remedies with respect to such default at any time.

26.8. Amendments

No amendment of this Agreement (or of any of the documents referred to in this Agreement) shall be valid unless it is in writing and signed by or on behalf of each of the Parties to it. The expression "amendment" shall include any amendment, variation, supplement, deletion or replacement however effected. Unless expressly agreed, no amendment shall constitute a general waiver of any provisions of this Agreement, nor shall it affect any rights, obligations or liabilities under or pursuant to this Agreement which have already accrued up to the date of amendment, and the rights and obligations of the Parties under or pursuant to this Agreement shall remain in full force and effect, except and only to the extent that they are so amended.

26.9. Counterparts

This Agreement may be executed in two counterparts, each of which will be deemed an original, with the same effect as if the signatures thereto and hereto were upon the same instrument, but all of which together will constitute one and the same instrument.

26.10. No Agency or partnership

The Parties agree that nothing in this Agreement shall be in any manner interpreted to constitute an agency for and on behalf of any other Party. None of the provisions of this Agreement shall be deemed to constitute a partnership between the Parties hereto and no Party shall have any authority to bind the other Party or shall be deemed to be the agent of the other Party in any way.

26.11. Notices

All notices, requests, demands or other communication ("Notice") required or permitted to be given under this Agreement and the provisions contained herein shall be written in English and shall be deemed to be duly sent by registered post with acknowledgment due, or transmitted by facsimile transmission to the other Parties at the address indicated in SCHEDULE II hereof or at such other address as the Party to whom such notices, requests, demands or other communication is to be given shall have last notified to the Party giving the same in the manner provided in this Clause, but no such change of address shall be deemed to have been given until it is actually received by the Party sought to be charged with the knowledge of its contents. Any notice, request, demand or other communication delivered to the Party to whom it is addressed as provided in this Clause 26.11 shall be deemed to have been given and received on the day of its receipt at such address.

A copy of the Notice sent by registered post with acknowledgment due, or transmitted by facsimile transmission may also be sent through email to the email addresses specified in

SCHEDULE H solely for the information of the recipient and shall take effect only when the registered post is actually delivered or the fax is received by the recipient, as the case may be.

26.12. Entire Agreement

This Agreement (including all such deeds and documents issued or executed pursuant hereto or referred to herein) and the Allotment Document constitutes and represents the entire agreement between the Parties with regard to the rights and obligations of each of the Parties and cancels and supersedes all prior arrangements, agreements or understandings, if any, whether oral or in writing, between the Parties on the subject matter hereof or in respect of matters dealt with herein. In the event of a conflict between this Agreement and the Allotment Document, the provisions of this Agreement shall prevail to the extent of the conflict.

26.13. Specific Performance of Obligations

The Nominated Authority shall be entitled to an injunction or injunctions to prevent breaches of this Agreement or to seek or enforce specific performance of this Agreement, in addition to any other legal rights and remedies, without the necessity of demonstrating the inadequacy of monetary damages.

26.14. Power of the Central Government

The Allottee acknowledges that for the purposes of this Agreement, the Central Government is acting through the Nominated Authority pursuant to the Ordinance and the Rules. However, for the purposes of exercise of rights and obligations hereunder and any Applicable Law, the Central Government shall be entitled to act through any of its relevant departments, ministries or any Governmental Agencies and all such relevant departments, ministries or any Governmental Agencies shall be entitled to exercise rights and obligations under this Agreement as if such relevant departments, ministries or any Governmental Agencies were a Party hereto.
