16.	Specific recommendation of concerned Chief Conservator of Forests for acceptance or otherwise of the proposal with detailed reasons.	Since the project is a Central Govt funded project being implemented by Power Grid Corporation of India and aims for major improvement of power scenario and distribution in the State so the diversion of 10/174 Ha of forest land in <b>Kanubari Forest Division</b> in Longding District of Arunachal Pradesh for construction of 132 KV transmission line from Khonsa to Longding is recommended. The Part III for balance portion of 55.082Ha falling in Khonsa Forest Division is submitted separately.
