भारत के महासर्वेक्षक डा० पृथ्वीश नाग, के निदेशन में प्रकाशित
Published under the direction of Dr. Prithwish Nag, Surveyor General of India.
Survey of India Hāthībarkala Estate, Post Box No. 37, Dehra Dūn-248001 (Uttarānchal), Department of Science & Technology, Government of India.

1:50,000

HEIGHTS & CONTOURS IN METRES
CONTOUR INTERVAL 10 METRES

Water features are shown in blue where they generally contain water.

Cultivated areas are coloured yellow

The exterior boundaries of areas of Reserved or Protected Forests are shown by green ribands.

Contours are approximate.

A relative height, δr , represents the approximate height, in metres, between the top and bottom of a steep slope.

Wooded areas are coloured green. Scattered trees and other vegetation are in green, but prominent surveyed trees are in black.

This sheet has been compiled from 1:25,000 survey.

The triangulated heights and contours in this sheet have not been adjusted to the heights of the spirit-levelled bench-marks and may not be strictly in accordance with them.

Cart-tracks in this sheet are generally motorable in dry season.

A relative height, e.g., 3r, marked along a canal, indicates the height of the top of the canal embankment above the adjacent country.

Wells are numerous throughout the sheet; only the important ones have been shown.
