

Full Title of the project - Installation and construction of Municipal Solid Waste Management Plant at Theog.

File. No. **FP/HP/Other/11318/2015**

Date of Proposal- **01-11-2022**

CHECK LIST No.10

Justification for location of project in forest area

The installation and construction of proposed Municipal Solid Waste Management Plant is very important to implement the Environment Protection Act as per Municipal Solid Rule, 2000, 4R Rule (4R i.e. Reduce, Reuse, Recycle and Recover) Govt. of India. No non-forest land is available for the construction of above mentioned plant.

The proposed site is situated in adjoining the site of old existing plant i.e. Govt Forest DPF-52-Rohru adjacent to National Highway-22 and have sufficient area of 960 sq.mtr. The Proposed site is barren land. So no clearance of vegetation, no demolition of any structure is required for the proposed plant. The site lies nearer to Theog town where maximum waste will be generated. Thus will be economical in cost and also help in improving environment by less consumption of fuel for transportation of waste.

As such the location of the project in the Forest land is justified.

Place- **THEOG**
