2	Name of the road including kilometer from- to;	<b>Thachadhar, Naloti Road Km. 0/0 to 8/00.</b>
3	Total length of the road passing through the forest area and private area;	Length passing through Forest area 4699 mtrs Length passing through Private Land 3301 mtrs
4	Length of the road for which forest land has already been broken/already constructed;	2.472Kms Jeepable road constructed heving forest land =0.7169 hac.
5	Length of the road and extent (in hectare) passing through forests;	4699 mtrs ( 3.39 hac
6	Date of starting the work.	The work has not been started by PWD yet. However , work was done through BDO during 1997-98.
7	Name of the organization which constructed the road;	DRDA (Block development department) has constructed the jeepable road from Km 0/0 to 2/472 during the year 1997-98.
8	For completing the work, whether there is need to use additional forest area or alignment can be changed without further use of forest land;	No alignment cannot be changed without further use of forest land as this alignment involves minimum forest land and minimum felling of trees.
9	If not, total length of the road and forest area required for completing the work (including the forest area used and to be used);	Total length of road is 8.000Kms. and total area involved in 4.699 Km. length of forest land in 3.39 hec (including dumping area.
10	Details of the damages caused to bio- diversity including number of trees felled other than breaking the earth (which is already covered under point 5 above);	Work has not been started by PWD and as per record, no damage has been done to the trees in this length of road.
