JOINT INSPECTION REPORT

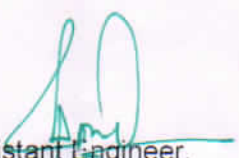

1. The joint inspection of the site for the diversion of **0.0576 Ha** of forest land for the **construction of AE office at Kelodhar in Tehsil Chachiot, Distt. Mandi (H.P.)** was done on **30/08/2019**
2. The user agency has proposed three different patches. In patch No.1 total forest land measured **0.0576 Hect.** was involved and there was minimum destruction to flora and fauna, whereas in patch No.2 & 3 total forest land measured **0.35 Hect** and **0.87 hect** respectively and Divisional Forest Officer Nachan as well as joint inspection committee has rejected these alignments as more Forest land as well as more tree are involved as compare to patch No.1.
3. Since, patch No.1 involves least forest land as well as least enumeration of trees, the same has been finalized. The patch No.2 & 3 has been rejected by the joint inspection committee and by the user agency as a consequence.

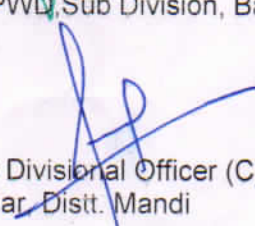

There is no scope of avoidance of forest land. However, all efforts have been made to minimize the user of forest land. The diversion of **0.0576 hect.** of forest land is there for minimum and cannot be escaped.

The Joint Inspection Committee therefore recommends diversion of **0.0576 hect.** of forest land (revenue details enclosed herewith) under Section-2 of conservation Act. 1980.
