Certificate for minimum use of forest land to be submitted by User Agency, giving details of area and trees involved in the alternative examined and reasons for their rejection duly countersigned by DFO (in prescribed format).

This is to certify that the forest area involved in the proposal is unavoidable and barest minimum forest area i.e. **0.2807 Ha.** area is proposed for diversion in Mayurbhanj District of Odisha State.

The proposed pipeline will be crossing Revenue/Reserved Forest along Rasagobindapur & Betnoti tahsils of Mayurbhanj district to supply Natural Gas from Dhamara to Haldia. As this is the most feasible route to connect the Dhamra-Haldia Gas Pipeline part of Jagdishpur-Haldia-Bokaro-Dhamra Gas Pipeline, crossing of the forest area is unavoidable and this is the minimum forest requirement for the project.

The Forest (Conservation) Act, 1980 and Forest (Conservation) Rules, 2003 have been taken in to consideration during route finalization. And due care has been taken that minimal involvement of any type of forest exists.
