**Sir,**

With reference to the subject and reference captioned above. The Para-wise reply to the observations raised by Regional Officer IR, MOEF & CC, Jammu vide letter No.9-JKC-057/2021-Jammu dated 01.07.2021 pertaining to this Division is as under:-

**Reply to S.No.(iii)** The construction of road from Dabathali to Choatra lahar and Sathla to Sarthan takes off from already constructed road upto Dabathali and it culminates at Sarthan. The alignment which is the shortest possible and connects the maximum hamlets of population have been selected keeping in view the grade of road. No other alignment is technically feasible and as such not worked out. Moreover minimum forest land is involved in the proposed road.

**Reply to S.No. (iv)** The alignment of road towards the end point has been examined and it has been found that in order to provide road connectivity to the maximum hamlets residing in the area, it becomes necessary to align road as such a way so that maximum hamlets lie nearer to the alignment.

Moreover the alignment has been selected keeping in view that proposed road provide maximum connectivity to the inhabitants of the area and also alignment is technically feasible.

Yours faithfully,
