

**NO OBJECTION CERTIFICATE**

As per the inspection report submitted by the Assistant Engineer Manikaran Sub Division HPPWD Manikaran at Shat, the proposed site for setting up small hydro project Kasol at river Kasol (Graham Nallah) there is proposal for construction of PWD road from village Kasol to Graham under MLA Priority Scheme. The desilting tank of the project is about 40.00 meter down stream from the temporary bridge at Km. 2/760 over which our proposed alignment is passing and the power house site is 50.00 meter away from the proposed road. Hence this department has no objection for the construction of proposed Hydro Project of the company subject to the following condition.

- 1 That in future any Project components should not disturb/affect our proposed alignment and constructed road in future.
- 2 That the company shall stack excavated material in their dumping site.
- 3 That the company may ensure that no debris should be thrown in the proposed alignment and adjacent land of the alignment.
- 4 No water shall be discharged from any component of project which may cause damage to the road when constructed in future.
- 5 Any violation of above will result in cancellation of NOC.
